

STUDENTS SPEAK: A Pearson Writer Success Story

Bree Hardwick

Southern New Hampshire University, Manchester, NH

Ambition/Career Goal: Bachelor of Science in Healthcare Management

In my free time... I enjoy karaoke, Cincinnati Reds baseball games, and craft beer.

What (or who) motivates and inspires you to graduate from college?

My 10-year-old daughter is my inspiration to succeed. I want to show her by example that college is worthwhile and necessary.

What was your motivation for using Pearson Writer?

I am new to the world of college. After being out of school for more than ten years, I was very nervous to go back. When I was given the opportunity to use Pearson Writer, I jumped at the chance. I wanted to use any resource that was going to help me succeed.

How did using Pearson Writer help you succeed in your course?

Pearson Writer helped me with many things in my course. I used the Writing Review option to check for grammar and spelling issues before submitting my discussion posts. The resource citation option—Cite a Source—was what helped me most. When writing papers with citations, Pearson Writer helped me keep my thoughts and sources organized. When I started my course, I struggled a bit with my professor on citation. But, I haven't had an issue since I started using Pearson Writer!

What is your favorite feature of Pearson Writer and why?

My favorite feature of Pearson Writer is the outlining option. Once you open your project, Pearson Writer gives you a place to store all your sources and keep them organized. When your work is organized, your paper will be also.

How will Pearson Writer make an impact on your college experience?

Pearson Writer has already made an impact on my college experience. I use the site at least once a week. Pearson Writer is a tool all students can use to their advantage. I plan to use it as long as it's available!
