Mickey Revenaugh
Director, New School Models, Pearson

Robert Eichorn
Principal, New Directions Alternative Education Center

Robyn Bagley
Founder and Principal, Career Path High School

Michael Petrilli
President, Thomas B. Fordham Institute

Final Thoughts
Consider these last few tips as you maximize digital learning to prime your students for future success.
• Digital learning jumpstarts college and career readiness.
• Flexibility allows curriculum to meet personalized learning needs.
• It’s time to re-think our college obsession. Only 14 percent of low-income students receive a four-year degree. A better approach? Developing coherent, authentic, career and technical education pathways.
