

# Crafting a Learning Story

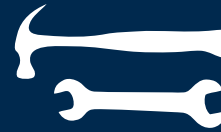

## Get ideas

- Think of learning objectives as the answers to a problem
- Imagine unusual or extreme perspectives
- Identify interesting events in the history of a topic

## Build your storyline

### Describe the problem

- Why is it meaningful?
- Who are the characters?

### Introduce action

- What approach was taken to tackle the problem?
- What obstacles or complications arose?

### Achieve resolution

- What outcomes resulted?
- What questions or challenges remain?

## Create cognitive work

### Provide opportunities for learners to:

- Infer outcomes
- Hypothesize solutions
- Recommend alternatives actions
- Make predictions
- Struggle with contradictory ideas
