

Master 59: Activity 25 Assessment More or Less

Conceptual Understanding of Counting Behaviours/Strategies			
Student says number word in between "touches" or does not say one number word for each counter	Student does not know which number comes next in the counting-on or counting-back	Student counts on to find one or two less.	Student counts back but loses track of the number counted back.
counted.	sequence.	"2 less than 8, that's 8, 9, 10."	"9, 8, 7, 6. Did I count back 2?"
	"15, 14, ?"		Did i count back 2:
Observations/Documentation	on .		
Adding and Subtracting On	e and Two Behaviours/Stra	tegies	
Adding and Subtracting On Student does not understand the meaning of "more" or "less."	e and Two Behaviours/Stra Student moves in the wrong direction on the number line.	Student uses the number line to count on or count back correctly.	Student uses mental math and the number relationships of one or two more or less.
Student does not understand the	Student moves in the wrong	Student uses the number line to	number relationships of one or two
Student does not understand the	Student moves in the wrong direction on the number line.	Student uses the number line to	number relationships of one or two more or less.
Student does not understand the meaning of "more" or "less."	Student moves in the wrong direction on the number line.	Student uses the number line to	number relationships of one or two more or less.
Student does not understand the meaning of "more" or "less."	Student moves in the wrong direction on the number line.	Student uses the number line to	number relationships of one or two more or less.
