Master 36: Activity 13 Assessment
Place Value: Consolidation

Composing and Decomposing 3-Digit Numbers Behaviours/Strategies
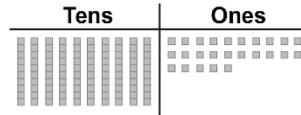

|			
1. Student composes and a three-digit number using 35 Base Ten Blocks. **Hundreds Tens Ones** "I modelled 134."	2. Student trades 1 ten for 10 ones to compose a lesser three-digit number using 35 Base Ten Blocks. "I traded 1 hundred for 10 tens. I need 25 more ones to have 35 Base Ten Blocks." **Tens Ones** "I modelled 125."	3. Student continues to trade 1 ten for 10 ones until they can no longer model a three-digit number. **Tens Ones** "If I continue trading, I will not get a three-digit number. 107 is the least number I can make."	4. Student uses place value to represent a number in different ways. "One hundred seven 1 hundred, 0 tens, 7 ones; 8 tens, 27 ones 107 ones IIIIIIII•••••••••••••••••••••••••"
