

Master 66: Intervention Activity 5 Assessment

Tower Views

Drawing Perspective Diagrams Behaviours/Strategies

1. Student builds a structure, but struggles to create 2-D representations of it (e.g., top/front/side views).

2. Student creates one 2-D representation of a structure (e.g., top, front, or side view), but is confused by the other views.

“I drew the front. It only has one view.”

3. Student accurately creates 2-D representations (e.g., top/front/side views) of 3-D objects.

Observations/Documentation

Visualizing Different Perspectives Behaviours/Strategies

1. Student builds a structure, but does not show understanding of the concept of perspective.

2. Student builds a structure, but struggles to visualize and describe the views of the structure from multiple perspectives, as he or she cannot isolate a particular view or distinguish different views.

3. Student successfully visualizes and describes the views of a 3-D solid from multiple perspectives (e.g., top/front/side views).
