

Master 65: Activity 23 Assessment

Coding on a Grid

| Reading and Writing Code on Grids Behaviours/Strategies | | |
|---|--|--|
| <p>1. Student describes the movement from one location to another on a grid, but code is not accurate.</p> | <p>2. Student describes the movement from one location to another on a grid, but writes code by counting squares instead of steps, resulting in one extra arrow.</p> | <p>3. Student describes the movement from one location to another on a grid and accurately writes code, but struggles to check if partner's code is correct.</p> |
| Observations/Documentation | | |
| | | |
| <p>4. Student describes the movement from one location to another on a grid and writes accurate code, but struggles to write code from memory.</p> <p>"How can I write the code without seeing the grid?"</p> | | <p>6. Student describes the movement from one location to another on a grid and writes accurate codes, with and without seeing a grid.</p> |
