

# Master 98: Intervention Activity 4 Assessment

## More or Less Likely?

<b>Comparing the Likelihood of Two Events Behaviours/Strategies</b>			
<p>1. Student struggles to compare the likelihood of two events and chooses events randomly.</p>	<p>2. Student compares the likelihood of two events, but decision is based on beliefs or what he or she wants to happen. "It is more likely that I will ride a roller coaster tomorrow because I love to go on rides."</p>	<p>3. Student compares the likelihood of two events, but cannot justify thinking. "It is more likely that it will snow today, but I don't know why."</p>	<p>4. Student successfully compares the likelihood of two events and justifies thinking. "It is more likely that I will ride a bus tomorrow because tomorrow is a school day and I take the bus to school."</p>
<b>Observations/Documentation</b>
