## Activity 7 Assessment

 Telling Time| Time and Measurement Relationships |  |  |  |
| :---: | :---: | :---: | :---: |
| Uses standard units to measure passage of time <br> "I used a stopwatch. Recess lasts 20 minutes. I used a watch. <br> Kayla ran 50 m in 7 seconds." | Selects and uses appropriate unit to measure time <br> "I would measure a school day in hours, the time to walk to the library in minutes, and the blink of an eye in seconds." | Reads time on an analogue and digital clock <br> "It is 10 minutes after 9. " | Understands relationships among time units <br> " 1 hour is 60 minutes. <br> So, 2 hours is 120 minutes. <br> 1 minute is 60 seconds. <br> So, 2 minutes is 120 seconds." |
