## Connections: Take a Closer Look at Nature

Can you find symmetry in these objects from nature?  
Where else might you find symmetry in nature?

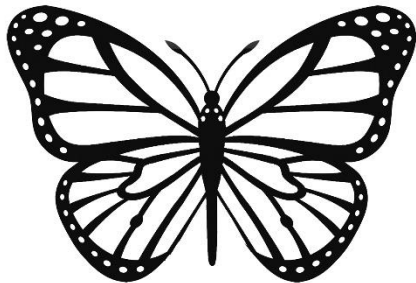

This is a leaf of the Sugar Maple.  
It is on the Canadian flag.

Have you ever looked closely at  
a snowflake?  
No two snowflakes are alike.

Many Monarch butterflies migrate  
5000 km to Mexico for the winter.

The spots on a ladybug, along  
with its colourful body, are meant  
to warn predators to stay away.
