Appendix 23.1: The International Accounting Standards Committee:

Preface to the sixteenth edition

This edition of the book is based on the Australian Accounting Standards Board (AASB) standards and interpretations that have been issued up to the end of September 2016. As a result, there have been widespread changes to this edition – some of them based on changes to the accounting standards and some on the feedback we have received. The main changes to this edition are as follows:

- Part 1 has been restructured to reduce the number of chapters on the conceptual framework (from three to two). However, there is a new chapter on fair value measurement to enhance the discussion of measurement in accounting.
- The structure of Part 2 is largely unchanged. All chapters have been revised to take account of developments since the fifteenth edition in particular, Chapter 11 has been revised to incorporate the effects of the new standard on leases (AASB 116). The chapter on financial instruments was contributed by Professor Phil Hancock; we are indebted to him for agreeing to revise this chapter.
- The highlight of Part 3 is the introduction of a new chapter on revenue to incorporate the significant changes wrought by the new standard on revenue (AASB 15).
- Part 4 has been rationalised into four chapters, covering the extractive industries, agricultural
 activity, superannuation entities and insurance. Where relevant, material from the deleted
 chapters has been revised and reassigned to other chapters for this edition.
- The structure of Parts 5 and 6 remains the same as for the fifteenth edition. All chapters have been updated.

As for previous editions, our partners have our profound gratitude for their support during the preparation of this edition.

Graham Peirson, Clayton Kathy Herbohn, St Lucia Tracy Artiach, Brisbane Bryan Howieson, Adelaide
