Preface 13

About the Author 18

## THE CORE

### Introduction 19

#### Chapter 1 A Tour of the World 21

- 1-1 The Crisis 22
- 1-2 The Euro Area 24
  - Can European Unemployment Be Reduced? 26 • What Has the Euro Done for Its Members? 27
- 1-3 The United States 28
  - Do Policymakers Have the Tools to Handle the Next Recession? 30 • How Worrisome Is Low Productivity Growth? 31
- 1-4 China 32
- 1-5 Looking Ahead 34
- Appendix 1: Where to Find the Numbers 37
- Appendix 2: What Do Macroeconomists Do? 37

#### Chapter 2 A Tour of the Book 39

- 2-1 Aggregate Output 40
  - GDP: Production and Income 40
  - Nominal and Real GDP 42 • GDP: Level versus Growth Rate 44
- 2-2 The Unemployment Rate 45
  - Why Do Economists Care about Unemployment? 46
- 2-3 The Inflation Rate 47
  - The GDP Deflator 47 • The Consumer Price Index 49 • Why Do Economists Care about Inflation? 50
- 2-4 Output, Unemployment, and the Inflation Rate: Okun's Law and the Phillips Curve 51
  - Okun's Law 51 • The Phillips Curve 52
- 2-5 The Short Run, the Medium Run, and the Long Run 53
- 2-6 A Tour of the Book 54
  - The Core 55 • Extensions 55
  - Back to Policy 55 • Epilogue 56

Appendix: The Construction of Real GDP and Chain-Type Indexes 60

### The Short Run 63

#### Chapter 3 The Goods Market 65

- 3-1 The Composition of GDP 66
- 3-2 The Demand for Goods 67
  - Consumption (C) 68
  - Investment (I) 70
  - Government Spending (G) 70
- 3-3 The Determination of Equilibrium Output 71
  - Using Algebra 72 • Using a Graph 73 • Using Words 75 • How Long Does It Take for Output to Adjust? 76
- 3-4 Investment Equals Saving: An Alternative Way of Thinking about Goods-Market Equilibrium 78
- 3-5 Is the Government Omnipotent? A Warning 80

#### Chapter 4 Financial Markets I 87

- 4-1 The Demand for Money 88
  - Deriving the Demand for Money 89
- 4-2 Determining the Interest Rate: I 91
  - Money Demand, Money Supply, and the Equilibrium Interest Rate 91 • Monetary Policy and Open Market Operations 93
  - Choosing Money or Choosing the Interest Rate? 95
- 4-3 Determining the Interest Rate: II 96
  - What Banks Do 96 • The Demand for and Supply of Central Bank Money 98 • The Demand for Central Bank Money 98 • The Federal Funds Market and the Federal Funds Rate 99
- 4-4 The Liquidity Trap 101

## Chapter 5 Goods and Financial Markets: The IS-LM Model 107

- 5-1 The Goods Market and the IS Relation 108
  - Investment, Sales, and the Interest Rate 108 • Determining Output 109 • Deriving the IS Curve 111 • Shifts of the IS Curve 111
- 5-2 Financial Markets and the LM Relation 112
  - Real Money, Real Income, and the Interest Rate 112 • Deriving the LM Curve 113
- 5-3 Putting the IS and LM Relations Together 114
  - Fiscal Policy 114 • Monetary Policy 116
- 5-4 Using a Policy Mix 116
- 5-5 How Does the IS-LM Model Fit the Facts? 120

## Chapter 6 Financial Markets II: The Extended IS-LM Model 127

- 6-1 Nominal versus Real Interest Rates 128
  - Nominal and Real Interest Rates in the United States since 1978 130 • Nominal and Real Interest Rates: The Zero Lower Bound and Deflation 131
- 6-2 Risk and Risk Premia 132
- 6-3 The Role of Financial Intermediaries 133
  - The Choice of Leverage 134 • Leverage and Lending 135
- 6-4 Extending the IS-LM Model 137
  - Financial Shocks and Policies 139
- 6-5 From a Housing Problem to a Financial Crisis 140
  - Housing Prices and Subprime Mortgages 140 • The Role of Financial Intermediaries 141 • Macroeconomic Implications 143 • Policy Responses 143

## The Medium Run 151

### Chapter 7 The Labor Market 153

- 7-1 A Tour of the Labor Market 154
  - The Large Flows of Workers 154
- 7-2 Movements in Unemployment 157
- 7-3 Wage Determination 159

Bargaining 160 • Efficiency Wages 160 • Wages, Prices, and Unemployment 162 • The Expected Price Level 162 • The Unemployment Rate 163 • The Other Factors 163

7-4 Price Determination 163

7-5 The Natural Rate of Unemployment 164

The Wage-Setting Relation 164 • The Price-Setting Relation 165 • Equilibrium Real Wages and Unemployment 166

7-6 Where We Go from Here 167

Appendix: Wage- and Price-Setting Relations versus Labor Supply and Labor Demand 172

### Chapter 8 The Phillips Curve, the Natural Rate of Unemployment, and Inflation 173

8-1 Inflation, Expected Inflation, and Unemployment 174

8-2 The Phillips Curve and Its Mutations 176

The Original Phillips Curve 176 • The De-anchoring of Expectations 176 • The Re-anchoring of Expectations 179

8-3 The Phillips Curve and the Natural Rate of Unemployment 180

8-4 A Summary and Many Warnings 182

Variations in the Natural Rate over Time 183 • Variations in the Natural Unemployment Rate across Countries 183 • High Inflation and the Phillips Curve 184 • Deflation and the Phillips Curve 187

Appendix: Derivation of the Relation Between Inflation, Expected Inflation, and Unemployment 193

### Chapter 9 From the Short to the Medium Run: The IS-LM-PC Model 195

9-1 The IS-LM-PC Model 196

9-2 From the Short to the Medium Run 199

9-3 Complications and How Things Can Go Wrong 201

The Zero Lower Bound and Deflation Spirals 202

9-4 Fiscal Consolidation Revisited 203

9-5 The Effects of an Increase in the Price of Oil 207

Effects on the Natural Rate of Unemployment 208

9-6 Conclusions 210

The Short Run versus the Medium Run 212 • Shocks and Propagation Mechanisms 212

## The Long Run 217

### Chapter 10 The Facts of Growth 219

10-1 Measuring the Standard of Living 220

10-2 Growth in Rich Countries since 1950 223

The Large Increase in the Standard of Living since 1950 225 • The Convergence of Output per Person 226

10-3 A Broader Look across Time and Space 227

Looking across Two Millennia 227 • Looking across Countries 227

10-4 Thinking about Growth: A Primer 230

The Aggregate Production Function 230 • Returns to Scale and Returns to Factors 231 • Output per Worker and Capital per Worker 231 • The Sources of Growth 232

### Chapter 11 Saving, Capital Accumulation, and Output 237

11-1 Interactions between Output and Capital 238

The Effects of Capital on Output 238 • The Effects of Output on Capital Accumulation 239 • Output and Investment 239 • Investment and Capital Accumulation 240

11-2 The Implications of Alternative Saving Rates 241

Dynamics of Capital and Output 241 • The Saving Rate and Output 243 • The Saving Rate and Consumption 246

11-3 Getting a Sense of Magnitudes 248

The Effects of the Saving Rate on Steady-State Output 250 • The Dynamic Effects of an Increase in the Saving Rate 251 • The US Saving Rate and the Golden Rule 253

11-4 Physical versus Human Capital 254

Extending the Production Function 254 • Human Capital, Physical Capital, and Output 255 • Endogenous Growth 256

Appendix: The Cobb-Douglas Production Function and the Steady State 259

### Chapter 12 Technological Progress and Growth 261

12-1 Technological Progress and the Rate of Growth 262

Technological Progress and the Production Function 262 • Interactions between Output and Capital 264 • Dynamics of Capital and Output 266 • Back to the Effects of the Saving Rate 267

12-2 The Determinants of Technological Progress 268

The Fertility of the Research Process 269 • The Appropriability of Research Results 270 • Innovation versus Imitation 272

12-3 Institutions, Technological Progress, and Growth 273

Appendix: How to Measure Technological Progress, and the Application to China 280

### Chapter 13 The Challenges of Growth 283

13-1 The Future of Technological Progress 284

13-2 Robots and Unemployment 285

13-3 Growth, Churn, and Inequality 287

The Increase in Wage Inequality 289 • The Causes of Increased Wage Inequality 290 • Inequality and the Top 1% 291 • Growth and Inequality 292

13-4 Climate Change and Global Warming 295

## EXTENSIONS

### Expectations 303

#### Chapter 14 Financial Markets and Expectations 305

14-1 Expected Present Discounted Values 306

Computing Expected Present Discounted Values 306 • A General Formula 307 • Using Present Values: Examples 308 • Constant Interest Rates 308 • Constant Interest Rates and Payments 308 • Constant Interest Rates and Payments Forever 309 • Zero Interest Rates 309 • Nominal versus Real Interest Rates and Present Values 309

- 14-2 Bond Prices and Bond Yields 310  
 Bond Prices as Present Values 312  
 • Arbitrage and Bond Prices 313 • From Bond Prices to Bond Yields 314  
 • Reintroducing Risk 315 • Interpreting the Yield Curve 316
- 14-3 The Stock Market and Movements in Stock Prices 317  
 Stock Prices as Present Values 318 • The Stock Market and Economic Activity 320  
 • A Monetary Expansion and the Stock Market 321 • An Increase in Consumer Spending and the Stock Market 322
- 14-4 Risk, Bubbles, Fads, and Asset Prices 323  
 Stock Prices and Risk 324 • Asset Prices, Fundamentals, and Bubbles 324
- Appendix: Deriving the Expected Present Discounted Value Using Real or Nominal Interest Rates 330

## Chapter 15 Expectations, Consumption, and Investment 331

- 15-1 Consumption 332  
 The Very Foresighted Consumer 332  
 • An Example 333 • Toward a More Realistic Description 334 • Putting Things Together: Current Income, Expectations, and Consumption 337
- 15-2 Investment 338  
 Investment and Expectations of Profit 339 • Depreciation 339  
 • The Present Value of Expected Profits 339 • The Investment Decision 340 • A Convenient Special Case 342 • Current versus Expected Profit 342 • Profit and Sales 344
- 15-3 The Volatility of Consumption and Investment 346  
 Appendix: Derivation of the Expected Present Value of Profits under Static Expectations 351

## Chapter 16 Expectations, Output, and Policy 353

- 16-1 Expectations and Decisions: Taking Stock 354  
 Expectations, Consumption, and Investment Decisions 354 • Expectations and the IS Relation 354
- 16-2 Monetary Policy, Expectations, and Output 357  
 Monetary Policy Revisited 357

- 16-3 Deficit Reduction, Expectations, and Output 360  
 The Role of Expectations about the Future 361 • Back to the Current Period 361

## The Open Economy 371

### Chapter 17 Openness in Goods and Financial Markets 373

- 17-1 Openness in Goods Markets 374  
 Exports and Imports 374 • The Choice between Domestic Goods and Foreign Goods 376 • Nominal Exchange Rates 376 • From Nominal to Real Exchange Rates 377 • From Bilateral to Multilateral Exchange Rates 381
- 17-2 Openness in Financial Markets 382  
 The Balance of Payments 383 • The Choice between Domestic and Foreign Assets 385 • Interest Rates and Exchange Rates 387
- 17-3 Conclusions and a Look Ahead 389

### Chapter 18 The Goods Market in an Open Economy 393

- 18-1 The IS Relation in the Open Economy 394  
 The Demand for Domestic Goods 394 • The Determinants of  $C$ ,  $I$ , and  $G$  394 • The Determinants of Imports 395 • The Determinants of Exports 395 • Putting the Components Together 395
- 18-2 Equilibrium Output and the Trade Balance 397
- 18-3 Increases in Demand—Domestic or Foreign 398  
 Increases in Domestic Demand 398  
 • Increases in Foreign Demand 400  
 • Fiscal Policy Revisited 401
- 18-4 Depreciation, the Trade Balance, and Output 403  
 Depreciation and the Trade Balance: the Marshall-Lerner Condition 404 • The Effects of a Real Depreciation 404  
 • Combining Exchange Rate and Fiscal Policies 405
- 18-5 Saving, Investment, and the Current Account Balance 408  
 Appendix: Derivation of the Marshall-Lerner Condition 413

## Chapter 19 Output, the Interest Rate, and the Exchange Rate 415

- 19-1 Equilibrium in the Goods Market 416
  - 19-2 Equilibrium in Financial Markets 417
    - Domestic Bonds versus Foreign Bonds 417
  - 19-3 Putting Goods and Financial Markets Together 420
  - 19-4 The Effects of Policy in an Open Economy 422
    - The Effects of Monetary Policy in an Open Economy 422 • The Effects of Fiscal Policy in an Open Economy 423
  - 19-5 Fixed Exchange Rates 427
    - Pegs, Crawling Pegs, Bands, the EMS, and the Euro 427 • Monetary Policy When the Exchange Rate Is Fixed 428 • Fiscal Policy When the Exchange Rate Is Fixed 429
- Appendix: Fixed Exchange Rates, Interest Rates, and Capital Mobility 434

## Chapter 20 Exchange Rate Regimes 437

- 20-1 The Medium Run 438
    - The IS Relation under Fixed Exchange Rates 439 • Equilibrium in the Short and the Medium Run 439 • The Case for and against a Devaluation 440
  - 20-2 Exchange Rate Crises under Fixed Exchange Rates 442
  - 20-3 Exchange Rate Movements under Flexible Exchange Rates 445
    - Exchange Rates and the Current Account 446 • Exchange Rates and Current and Future Interest Rates 447 • Exchange Rate Volatility 447
  - 20-4 Choosing between Exchange Rate Regimes 448
    - Common Currency Areas 449 • Hard Pegs, Currency Boards, and Dollarization 451
- Appendix 1: Deriving the IS Relation under Fixed Exchange Rates 457
- Appendix 2: The Real Exchange Rate and Domestic and Foreign Real Interest Rates 457

## Back to Policy 459

### Chapter 21 Should Policymakers Be Restrained? 461

- 21-1 Uncertainty and Policy 462
  - How Much Do Macroeconomists Actually Know? 462 • Should Uncertainty Lead Policymakers to Do Less? 464 • Uncertainty and Restraints on Policymakers 464
- 21-2 Expectations and Policy 465
  - Hostage Takings and Negotiations 466 • Inflation and Unemployment Revisited 466 • Establishing Credibility 467 • Time Consistency and Restraints on Policymakers 469
- 21-3 Politics and Policy 469
  - Games between Policymakers and Voters 470 • Games between Policymakers 471 • Politics and Fiscal Restraints 472

### Chapter 22 Fiscal Policy: A Summing Up 479

- 22-1 What We Have Learned 480
- 22-2 The Government Budget Constraint: Deficits, Debt, Spending, and Taxes 481
  - The Arithmetic of Deficits and Debt 481 • Current versus Future Taxes 483 • Full Repayment in Year 2 483 • Full Repayment in Year  $t$  484 • Debt Stabilization in Year 2 485 • The Evolution of the Debt-to-GDP Ratio 486
- 22-3 Ricardian Equivalence, Cyclical Adjusted Deficits, and War Finance 488
  - Ricardian Equivalence 488 • Deficits, Output Stabilization, and the Cyclically Adjusted Deficit 489 • Wars and Deficits 490
- 22-4 The Dangers of High Debt 492
  - High Debt, Default Risk, and Vicious Cycles 492 • Debt Default 494 • Money Finance 494
- 22-5 The Challenges Facing US Fiscal Policy Today 497

### Chapter 23 Monetary Policy: A Summing Up 503

- 23-1 What We Have Learned 504
- 23-2 From Money Targeting to Inflation Targeting 505

	Money Targeting 505 • Inflation Targeting 507 • The Interest Rate Rule 508		The Three Implications of Rational Expectations 530 • The Integration of Rational Expectations 531
23-3	<b>The Optimal Inflation Rate 509</b> The Costs of Inflation 509 • The Benefits of Inflation 512 • The Optimal Inflation Rate: The State of the Debate 513	24-4	<b>Developments in Macroeconomics up to the 2009 Crisis 532</b> New Classical Economics and Real Business Cycle Theory 533 • New Keynesian Economics 533 • New Growth Theory 534 • Toward an Integration 535
23-4	<b>Unconventional Monetary Policy 514</b> Monetary Policy since the End of the Liquidity Trap 515	24-5	<b>First Lessons for Macroeconomics after the Crisis 536</b>
23-5	<b>Monetary Policy and Financial Stability 516</b> Liquidity Provision and Lender of Last Resort 517 • Macroprudential Tools 517		
<b>Chapter 24</b>	<b>Epilogue: The Story of Macroeconomics 525</b>	<b>Appendix 1</b>	<b>An Introduction to the National Income and Product Accounts A-1</b>
24-1	Keynes and the Great Depression 526	<b>Appendix 2</b>	<b>A Math Refresher A-7</b>
24-2	The Neoclassical Synthesis 526 Progress on All Fronts 527 • Keynesians versus Monetarists 528	<b>Appendix 3</b>	<b>An Introduction to Econometrics A-12</b>
24-3	The Rational Expectations Critique 529	<b>Glossary</b>	<b>G-1</b>
		<b>Index</b>	<b>I-1</b>
		<b>Credits</b>	<b>C-1</b>
		<b>Symbols Used in This Book</b>	<b>S-1</b>
