Chapter 1

Clinical reasoning:

What it is and why it matters..... 2

Tracy Levett-Jones and Judith Smith

Introduction	3
The concept of reasoning	4
What does 'thinking like a nurse' mean?.....	4
What is clinical reasoning?	4
Why is clinical reasoning important?.....	4
The clinical reasoning process	5
Clinical reasoning and critical thinking	9
Questioning assumptions and understanding errors	10
Conclusion	14
References.....	15

Chapter 2

Caring for a person experiencing an adverse drug reaction 16

Tracy Levett-Jones and Judith Smith

Introduction	17
SCENARIO 2.1 What did happen.....	18
Setting the scene	18
Person-centred care	20
SCENARIO 2.2 What might have happened.....	21
Change the scene	21
1. Consider the patient situation	22
2. Collect cues/information	23
3. Process information	25
4. Identify the problem/issue	26
5. Establish goals	26
6. Take action	26
7. Evaluate	27
8. Reflect	28
Further reading	29
References	29

Chapter 3

Caring for a person with fluid and electrolyte imbalance..... 30

Tracy Levett-Jones and Peter Sinclair

Introduction	31
SCENARIO 3.1 The fluid shift begins.....	32
Setting the scene	32
1. Consider the patient situation	33
2. Collect cues/information	34
3. Process information	35
4. Identify the problem/issue	37
5. Establish goals	37

6. Take action.....	38
7. Evaluate	39
8. Reflect.....	40

SCENARIO 3.2 The pendulum swings in the other direction	40
---	----

Changing the scene

1. Consider the patient situation	40
2. Collect cues/information	40
3. Process information	42
4. Identify the problem/issue	44
5. Establish goals	44
6. Take action.....	45
7. Evaluate	45
8. Reflect.....	45
Epilogue.....	46
Further reading	49
References	49

Chapter 4

Caring for a person experiencing pain..... 50

Tracy Levett-Jones and Bernadette Bugeja

Introduction

SCENARIO 4.1 Caring for a person experiencing acute pain	52
Setting the scene	52
1. Consider the patient situation	53
2. Collect cues/information	53
3. Process information	55
4. Identify the problem/issue	56
5. Establish goals	56
6. Take action.....	57
7. Evaluate	58
8. Reflect.....	58

SCENARIO 4.2 Caring for a person experiencing persistent pain	58
---	----

Changing the scene

1. Consider the patient situation	59
2. Collect cues/information	60
3. Process information	61
4. Identify the problem/issue	64
5. Establish goals	65
6. Take action.....	66
7. Evaluate	68
8. Reflect.....	70
Epilogue.....	70
Further reading	71
References.....	71

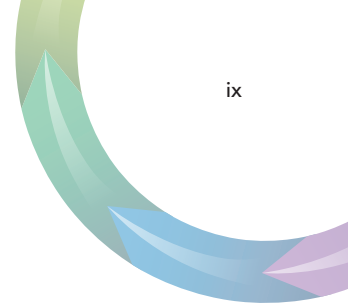

Chapter 5

Caring for a child with type 1 diabetes..... 72

Loretto Quinney, Kerry Reid-Searl and Veronica Mills

Introduction

SCENARIO 5.1 Caring for a child diagnosed with type 1 diabetes.....	74
---	----

Setting the scene	74
1. Consider the patient situation	80
2. Collect cues/information	80
3. Process information	81
4. Identify the problem/issue	82
5. Establish goals	83
6. Take action	83
7. Evaluate	83
8. Reflect	84
SCENARIO 5.2 Caring for a child with diabetic ketoacidosis (DKA)	84
Changing the scene	84
1. Consider the patient situation	84
2. Collect cues/information	85
3. Process information	87
4. Identify the problem/issue	88
5. Establish goals	89
6. Take action	89
7. Evaluate	90
8. Reflect	90
Epilogue	90
Further reading	91
References	91
Chapter 6	
Caring for a person experiencing respiratory distress and hypoxia	92
Amanda Wilson and Tyson Perrin	
Introduction	93
SCENARIO 6.1 Caring for a person with hypoxia and hypoxaemia	94
Setting the scene	94
1. Consider the patient situation	96
2. Collect cues/information	97
3. Process information	99
4. Identify the problem/issue	102
5. Establish goals	102
6. Take action	102
7. Evaluate	104
8. Reflect	105
SCENARIO 6.2 Caring for a person with respiratory distress	105
Changing the scene	105
1. Consider the patient situation	105
2. Collect cues/information	106
3. Process information	107
4. Identify the problem/issue	108
5. Establish goals	108
6. Take action	108
7. Evaluate	109
8. Reflect	109
Epilogue	109
Further reading	110

Chapter 7	
Caring for a person with a cardiac condition	112
Samantha Jakimowicz and Belinda Causby	
Introduction	113
SCENARIO 7.1 Caring for a person with ischaemic chest pain	114
Setting the scene	114
1. Consider the patient situation	117
2. Collect cues/information	118
3. Process information	119
4. Identify the problem/issue	121
5. Establish goals	122
6. Take action	122
7. Evaluate	122
8. Reflect	123
SCENARIO 7.2 Caring for a person with heart failure	123
Changing the scene	123
1. Consider the patient situation	123
2. Collect cues/information	124
3. Process information	126
4. Identify the problem/issue	127
5. Establish goals	128
6. Take action	128
7. Evaluate	128
8. Reflect	129
Epilogue	129
Further reading	130
References	130

Chapter 8	
Caring for a person with an acquired brain injury	132
Jacqui Pich and Rochelle Firth	
Introduction	133
SCENARIO 8.1 Caring for a person with an acquired brain injury and altered level of consciousness	134
Setting the scene	134
1. Consider the patient situation	137
2. Collect cues/information	138
3. Process information	140
4. Identify the problem/issue	141
5. Establish goals	142
6. Take action	142
7. Evaluate	143
8. Reflect	143
SCENARIO 8.2 Caring for a person recovering from a stroke	143
Changing the scene	143
1. Consider the patient situation	143
2. Collect cues/information	144
3. Process information	146
4. Identify the problem/issue	147
5. Establish goals	148

6. Take action	148
7. Evaluate	150
8. Reflect	150
Epilogue	150
Further reading	151
References	151

Chapter 9

Caring for a person receiving blood component therapies. 152

Elizabeth Newman and Vivienne Chau

Introduction	153
SCENARIO 9.1 Caring for a person requiring an emergency transfusion of packed red blood cells	154
Setting the scene	154
1. Consider the patient situation	155
2. Collect cues/information	157
3. Process information	158
4. Identify the problem/issue	159
5. Establish goals	159
6. Take action	160
7. Evaluate	161
8. Reflect	161
SCENARIO 9.2 Caring for a person undergoing a transfusion of platelets and fresh frozen plasma	161
Changing the scene	161
1. Consider the patient situation	162
2. Collect cues/information	163
3. Process information	165
4. Identify the problem/issue	167
5. Establish goals	167
6. Take action	167
7. Evaluate	168
8. Reflect	168
Epilogue	168
Further reading	169
References	169

Chapter 10

Caring for a person with sepsis 170

Natalie Govind and Lesley Fitzpatrick

Introduction	171
SCENARIO 10.1 Caring for a person with sepsis	172
Setting the scene	172
1. Consider the patient situation	173
2. Collect cues/information	175
3. Process information	177
4. Identify the problem/issue	179
5. Establish goals	179
6. Take action	179

7. Evaluate	180
8. Reflect	181
SCENARIO 10.2 Caring for a person with septic shock	181
Changing the scene	181
1. Consider the patient situation	181
2. Collect cues/information	182
3. Process information	183
4. Identify the problem/issue	184
5. Establish goals	184
6. Take action	185
7. Evaluate	185
8. Reflect	185
Epilogue	185
Further reading	187
References	187

Chapter 11

Caring for a person with substance dependence and complex post-traumatic distress syndrome 188

Mark Goodhew and Tracy Robinson

Introduction	189
SCENARIO 11.1 Caring for a young man with substance use dependence	190
Setting the scene	190
1. Consider the patient situation	191
2. Collect cues/information	192
3. Process information	195
4. Identify the problem /issue	196
5. Establish goals	197
6. Take action	197
7. Evaluate	197
8. Reflect	197
SCENARIO 11.2 The story unfolds: More than just substance abuse	198
Changing the scene	198
1. Consider the patient situation	198
2. Collect cues/information	198
3. Process information	201
4. Identify the problem/issue	203
5. Establish goals	203
6. Take action	203
7. Evaluate	203
8. Reflect	203
Further reading	205
References	205

Chapter 12

Caring for a person with Parkinson's disease 208

Rachel Rossiter and Vincent Carroll

Introduction	209
SCENARIO 12.1 Caring for a person with Parkinson's disease	210

Setting the scene	210
1. Consider the patient situation	213
2. Collect cues/information	214
3. Process information	217
4. Identify the problem/issue	219
5. Establish goals	219
6. Take action	220
7. Evaluate	220
8. Reflect	221
SCENARIO 12.2 The continuing impact of living with Parkinson's disease	221
Changing the scene	221
1. Consider the patient situation	222
2. Collect cues/information	222
3. Process information	223
4. Identify the problem/issue	224
5. Establish goals	224
6. Take action	224
7. Evaluate	225
8. Reflect	225
Epilogue	225
Further reading	226
