

THIRD EDITION

# Principles of Pathophysiology

SHANE BULLOCK | MAJELLA HALES

**PART 3****Nervous system pathophysiology 161****9 BRAIN AND SPINAL CORD DYSFUNCTION 162**

Introduction	163
Consciousness	163
Cerebrovascular accidents	167
CNS infections	172
Guillain–Barré syndrome	177
Hydrocephalus	178
Cerebral palsy	179
Cerebellar disorders	181
Neural tube defects	181

**10 NEURODEGENERATIVE DISORDERS 189**

Introduction	189
Common pathophysiological processes implicated in neurodegeneration	190
Parkinson's disease	191
Alzheimer's disease	195
Huntington's disease	199
Multiple sclerosis	201
Motor neurone disease	203

**11 NEUROTRAUMA 210**

Introduction	211
Traumatic brain injury (TBI)	211
Spinal cord injury	222

**12 SEIZURES AND EPILEPSY 241**

Introduction	241
Seizures	242

**13 NOCICEPTION AND PAIN 257**

Introduction	258
Epidemiology of pain	258
Nociception and pain	258
Pain assessment	264
Neuropathic pain	267
Clinical diagnosis and management of pain	270

**14 DISORDERS OF THE SPECIAL SENSES 277**

Introduction	278
Vision impairment	278
Hearing impairment	286
Balance and vestibular disorders	292

**15 MENTAL HEALTH DISORDERS 299**

Introduction	299
Factors influencing mental health and wellness	300

Brain regions involved in affect, cognition and behaviour	300
Affective disorders	300
Anxiety disorders	306
Microbiome–gut–brain axis	309
Psychosis	313
Substance dependence and behavioural addictions	314
Dual diagnosis	324

**PART 4****Endocrine pathophysiology 333****16 CONCEPTS OF ENDOCRINE DYSFUNCTION 334**

Introduction	334
The importance of endocrine feedback mechanisms	335
Types of pathophysiological mechanisms	336
Methods used to assess endocrine function	340
Principles of treatment	341

**17 HYPOTHALAMIC–PITUITARY DISORDERS 347**

Introduction	347
Growth hormone	348
Prolactin hypersecretion	354
Antidiuretic hormone	355
Multi-hormone pituitary disruptions	358

**18 THYROID AND PARATHYROID DISORDERS 367**

Introduction	368
Thyroid disorders	369
Parathyroid disorders	375

**19 ADRENAL GLAND DISORDERS 384**

Introduction	385
Disorders of the adrenal cortex	385
Disorders of the adrenal medulla	396

**20 DIABETES MELLITUS 404**

Introduction	405
Type 1 diabetes mellitus	405
Type 2 diabetes mellitus	406
Gestational diabetes	408
Clinical manifestations and complications of diabetes	411
Clinical diagnosis and management of diabetes mellitus	414

**PART 5****Cardiovascular pathophysiology 423****21 BLOOD DISORDERS 424**

Introduction	425
Anaemias	425

Decreased production of erythrocytes	425	Pulmonary dysfunction	557
Increased destruction of erythrocytes: extracellular causes	432	Respiratory assessments and investigations	561
Increased destruction of erythrocytes: intracellular causes	434	Respiratory failure	572
Loss of erythrocytes from blood loss	436	<b>27 OBSTRUCTIVE PULMONARY DISORDERS</b>	<b>581</b>
Polycythaemias	436	Introduction	582
Haemophilias	439	Asthma	582
Thrombocytopenia	441	Status asthmaticus	589
Leukaemia and lymphoma	442	Bronchitis	590
Multiple myeloma	444	Emphysema	593
<b>22 VASCULAR DISORDERS AND CIRCULATORY SHOCK</b>	<b>453</b>	Mechanisms of gas trapping	598
Introduction	454	Cystic fibrosis	599
Hypertension	454	Bronchiectasis	603
Common conditions affecting arteries	458	<b>28 RESTRICTIVE RESPIRATORY DISORDERS</b>	<b>612</b>
Aneurysms	461	Introduction	613
Arteriovenous malformations	463	Parenchymal lung disorders	613
Common conditions affecting veins	466	Extraparenchymal lung disorders	623
Thrombophlebitis and Phlebothrombosis	468	<b>29 RESPIRATORY INFECTIONS, CANCERS AND VASCULAR CONDITIONS</b>	<b>633</b>
Circulatory shock	470	Introduction	634
<b>23 CORONARY ARTERY DISEASE</b>	<b>481</b>	Respiratory infections	634
Introduction	482	Upper respiratory tract infections	634
Coronary artery disease	484	Lower respiratory tract infections	636
Acute coronary syndrome	491	Lung cancer	645
<b>24 CARDIAC MUSCLE AND VALVE DISORDERS</b>	<b>500</b>	Pulmonary vascular conditions	650
Introduction	501	<b>PART 7</b>	
Heart failure	501	<b>Fluid, electrolyte and renal pathophysiology</b>	<b>667</b>
Other causes of heart failure	506	<b>30 FLUID IMBALANCES</b>	<b>668</b>
Heart failure: risk factors, clinical manifestations, complications and diagnosis and management	514	Introduction	669
<b>25 DYSRHYTHMIAS</b>	<b>525</b>	Distribution of body water and fluid balance	669
Introduction	525	Compartment osmolality	670
Aetiology and pathophysiology	526	Alterations in body fluid levels	670
Clinical manifestations	531	Fluid deficits	670
Clinical diagnosis and management	534	Fluid excesses	671
<b>PART 6</b>		<b>31 ELECTROLYTE IMBALANCES</b>	<b>682</b>
<b>Pulmonary pathophysiology</b>	<b>545</b>	Introduction	682
<b>26 PULMONARY DYSFUNCTION</b>	<b>546</b>	Distribution of electrolytes	683
Introduction	547	Electrolyte imbalances	684
Respiratory rate, rhythm and depth	547	<b>32 COMMON INFLAMMATORY DISORDERS OF THE KIDNEYS AND URINARY TRACT</b>	<b>702</b>
Alterations in oxygen and carbon dioxide levels	553	Introduction	703
		The normal kidneys	703

Bacterial urinary tract infections	704
Kidney disorders	706
Urinary incontinence	716
<b>33 RENAL NEOPLASMS AND OBSTRUCTIONS</b>	<b>724</b>
Introduction	725
Polycystic kidney disease	725
Renal system cancers	726
Renal obstructions	730
<b>34 ACUTE KIDNEY INJURY AND CHRONIC KIDNEY DISEASE</b>	<b>738</b>
Introduction	739
Acute kidney injury	739
Chronic kidney disease	741

**PART 8**

**Gastrointestinal pathophysiology 751**

<b>35 GASTRO-OESOPHAGEAL REFLUX DISEASE AND PEPTIC ULCER DISEASE</b>	<b>752</b>
Introduction	753
Gastro-oesophageal reflux disease	753
Peptic ulcer disease	756
<b>36 MALABSORPTION SYNDROMES</b>	<b>764</b>
Introduction	765
Maldigestion	765
Impaired mucosal function	766
Alterations in microbial flora	770
<b>37 INTESTINAL DISORDERS</b>	<b>778</b>
Introduction	779
Infectious conditions of the intestines	779
Acute inflammatory conditions of the intestines	782
Intestinal neoplasms	785
Chronic inflammatory bowel diseases	788
Intestinal obstruction	792
<b>38 DISORDERS OF THE LIVER, THE GALL BLADDER AND THE PANCREAS</b>	<b>803</b>
Introduction	804
An overview of the pathophysiology of hepatobiliary disease	804
SARS-CoV-2 and the liver	807
Major hepatobiliary diseases	808
Major pancreatic diseases	818
Cystic fibrosis	821

**PART 9**

**Reproductive pathophysiology 829**

<b>39 FEMALE REPRODUCTIVE DISORDERS</b>	<b>830</b>
Introduction	831
Menstrual disorders	831
Genitourinary prolapse	834
Reproductive neoplasms	837
Female reproductive cancers	840
Inflammatory and infectious disorders	842
Breast disorders	846
Ectopic pregnancy	849
Female infertility	850
<b>40 MALE REPRODUCTIVE DISORDERS</b>	<b>860</b>
Introduction	860
Prostate disorders	861
Urethral and penile disorders	866
Testicular and scrotal disorders	873
Sexually transmitted infections	878

**PART 10**

**Musculoskeletal pathophysiology 885**

<b>41 MUSCULOSKELETAL TRAUMA AND MUSCLE DISORDERS</b>	<b>886</b>
Introduction	887
Musculoskeletal trauma	887
Fractures	892
Muscle disorders	899
Inflammatory myopathies	902
Muscular dystrophy	905
Muscle atrophy	906
Muscle contractures	907
Muscle cramp	907
Delayed onset muscle soreness (DOMS)	908
Rhabdomyolysis	909
<b>42 BONE AND JOINT DISORDERS</b>	<b>917</b>
Introduction	918
Bone and joint developmental disorders	918
Arthritis	923
Metabolic bone and joint diseases	934
Infective bone disorders	942
Osteogenic tumours	944

**PART 11****Integumentary system pathophysiology 953**

<b>43</b>	<b>INTEGUMENTARY SYSTEM DISORDERS</b>	<b>954</b>	<b>45</b>	<b>BITES AND STINGS</b>	<b>1008</b>
	Introduction	955		Introduction	1009
	Inflammatory skin conditions	955		Spider bites	1009
	Skin infections	963		Snake bites	1010
	Dermal appendage disorders	975		Tick bites	1014
<b>44</b>	<b>SKIN CANCERS, BURNS AND SCARRING</b>	<b>988</b>		Wasp and bee stings	1015
	Introduction	989		Marine bites and stings	1016
	Skin cancers	989		Glossary	1020
	Burns	992		Index	1037
	Scarring	1000
