

THIRD EDITION

Principles of Pathophysiology

SHANE BULLOCK | MAJELLA HALES

Brief table of contents

Part 1	Cellular and tissue pathophysiology	1
	CHAPTER 1 Pathophysiological terminology, cellular adaptation and injury	2
	CHAPTER 2 Determinants of health and illness	20
	CHAPTER 3 Inflammation and healing	41
	CHAPTER 4 Genetic disorders	55
	CHAPTER 5 Neoplasia	73
Part 2	Body defences and immune system pathophysiology	101
	CHAPTER 6 Stress and its role in disease	102
	CHAPTER 7 Immune disorders	114
	CHAPTER 8 Infection	754
Part 3	Nervous system pathophysiology	161
	CHAPTER 9 Brain and spinal cord dysfunction	162
	CHAPTER 10 Neurodegenerative disorders	189
	CHAPTER 11 Neurotrauma	210
	CHAPTER 12 Seizures and epilepsy	243
	CHAPTER 13 Nociception and pain	259
	CHAPTER 14 Disorders of the special senses	279
	CHAPTER 15 Mental health disorders	301
Part 4	Endocrine pathophysiology	335
	CHAPTER 16 Concepts of endocrine dysfunction	336
	CHAPTER 17 Hypothalamic–pituitary disorders	349
	CHAPTER 18 Thyroid and parathyroid disorders	369
	CHAPTER 19 Adrenal gland disorders	386
	CHAPTER 20 Diabetes mellitus	406
Part 5	Cardiovascular pathophysiology	425
	CHAPTER 21 Blood disorders	426
	CHAPTER 22 Vascular disorders and circulatory shock	455
	CHAPTER 23 Coronary artery disease	483
	CHAPTER 24 Cardiac muscle and valve disorders	502
	CHAPTER 25 Dysrhythmias	527

Part 6	Pulmonary pathophysiology	547
	CHAPTER 26 Pulmonary dysfunction	548
	CHAPTER 27 Obstructive pulmonary disorders	583
	CHAPTER 28 Restrictive respiratory disorders	614
	CHAPTER 29 Respiratory infections, cancers and vascular conditions	635
Part 7	Fluid, electrolyte and renal pathophysiology	669
	CHAPTER 30 Fluid imbalances	670
	CHAPTER 31 Electrolyte imbalances	684
	CHAPTER 32 Common inflammatory disorders of the kidneys and urinary tract	704
	CHAPTER 33 Renal neoplasms and obstructions	726
	CHAPTER 34 Acute kidney injury and chronic kidney disease	740
Part 8	Gastrointestinal pathophysiology	753
	CHAPTER 35 Gastro-oesophageal reflux disease and peptic ulcer disease	754
	CHAPTER 36 Malabsorption syndromes	766
	CHAPTER 37 Intestinal disorders	780
	CHAPTER 38 Disorders of the liver, the gall bladder and the pancreas	805
Part 9	Reproductive pathophysiology	831
	CHAPTER 39 Female reproductive disorders	832
	CHAPTER 40 Male reproductive disorders	862
Part 10	Musculoskeletal pathophysiology	887
	CHAPTER 41 Musculoskeletal trauma and muscle disorders	888
	CHAPTER 42 Bone and joint disorders	919
Part 11	Integumentary system pathophysiology	955
	CHAPTER 43 Integumentary system disorders	956
	CHAPTER 44 Skin cancers, burns and scarring	990
	CHAPTER 45 Bites and stings	1010
	GLOSSARY	1022
	INDEX	000

Detailed table of contents

About the authors	xi	Threshold and penetrance	65
Preface	xii	Principles of multifactorial inheritance	67
Acknowledgements	xiv	Congenital malformations	67
Features of the text	xv		
Educator resources	xvii		
PART 1			
Cellular and tissue pathophysiology 1			
1 PATHOPHYSIOLOGICAL TERMINOLOGY, CELLULAR ADAPTATION AND INJURY	2	5 NEOPLASIA	73
Introduction	3	Introduction	73
Important terminology	3	Epidemiology of cancer	74
Cellular responses to stimuli	3	Carcinogenicity and cancer	77
Cellular adaptations	5	Characteristics of cancer cells	79
Cellular injury	7	Tumour invasion and metastasis	84
Agents of cell injury	12	Classification of tumours	85
		Clinical manifestations of cancer	85
		Screening, diagnosis and management	87
2 DETERMINANTS OF HEALTH AND ILLNESS	20	PART 2	
Introduction	20	Body defences and immune system pathophysiology 101	
Determinants of health and illness	21	6 STRESS AND ITS ROLE IN DISEASE	102
Disease burden and mortality	22	Introduction	102
Individual factors influencing health	26	Stressors	103
Sociocultural and socioeconomic determinants of health	30	Historical perspectives on the stress response	103
Environmental determinants of health	32	Current perspectives on the stress response	105
The Australian indigenous context	34	Ageing and the stress response	107
		Sex differences in the stress response	108
3 INFLAMMATION AND HEALING	41	7 IMMUNE DISORDERS	114
Introduction	42	Introduction	115
Acute inflammation	42	An overview of immune function	115
Chronic inflammation	46	Types of immune dysfunction	116
Healing and repair	47	Immune overactivity	122
4 GENETIC DISORDERS	55	8 INFECTION	133
Introduction	56	Introduction	134
Principles of genetic inheritance	56	Infectious organisms	134
Clinical diagnosis	57	Types of colonisation by microorganisms	138
Autosomal dominant inheritance	57	Chain of transmission	139
Autosomal recessive inheritance	58	Antimicrobial drugs	142
X-linked inheritance	59	Emerging infectious diseases	143
Chromosomal abnormalities	59	The future	153

PART 3**Nervous system pathophysiology 161****9 BRAIN AND SPINAL CORD DYSFUNCTION 162**

Introduction	163
Consciousness	163
Cerebrovascular accidents	167
CNS infections	173
Guillain–barré syndrome	177
Hydrocephalus	178
Cerebral palsy	179
Cerebellar disorders	181
Neural tube defects	181

10 NEURODEGENERATIVE DISORDERS 189

Introduction	189
Common pathophysiological processes implicated in neurodegeneration	190
Parkinson's disease	191
Alzheimer's disease	195
Huntington's disease	199
Multiple sclerosis	201
Motor neurone disease	203

11 NEUROTRAUMA 210

Introduction	211
Traumatic brain injury (TBI)	211
Spinal cord injury	222

12 SEIZURES AND EPILEPSY 243

Introduction	243
Seizures	244

13 NOCICEPTION AND PAIN 259

Introduction	260
Epidemiology of pain	260
Nociception and pain	260
Pain assessment	266
Neuropathic pain	269
Clinical diagnosis and management of pain	272

14 DISORDERS OF THE SPECIAL SENSES 279

Introduction	280
Vision impairment	280
Hearing impairment	288
Balance and vestibular disorders	294

15 MENTAL HEALTH DISORDERS 301

Introduction	301
Factors influencing mental health and wellness	302

Brain regions involved in affect, cognition and behaviour	302
Affective disorders	302
Anxiety disorders	308
Microbiome–gut–brain axis	311
Psychosis	315
Substance dependence and behavioural addictions	316
Dual diagnosis	326

PART 4**Endocrine pathophysiology 335****16 CONCEPTS OF ENDOCRINE DYSFUNCTION 336**

Introduction	336
The importance of endocrine feedback mechanisms	337
Types of pathophysiological mechanisms	338
Methods used to assess endocrine function	342
Principles of treatment	343

17 HYPOTHALAMIC–PITUITARY DISORDERS 349

Introduction	349
Growth hormone	350
Prolactin hypersecretion	356
Antidiuretic hormone	357
Multi-hormone pituitary disruptions	360

18 THYROID AND PARATHYROID DISORDERS 369

Introduction	370
Thyroid disorders	371
Parathyroid disorders	377

19 ADRENAL GLAND DISORDERS 386

Introduction	387
Disorders of the adrenal cortex	387
Disorders of the adrenal medulla	398

20 DIABETES MELLITUS 406

Introduction	407
Type 1 diabetes mellitus	407
Type 2 diabetes mellitus	408
Gestational diabetes	410
Clinical manifestations and complications of diabetes	413
Clinical diagnosis and management of diabetes mellitus	416

PART 5**Cardiovascular pathophysiology 425****21 BLOOD DISORDERS 426**

Introduction	427
Anaemias	427

Decreased Production of Erythrocytes	427	Pulmonary dysfunction	559
Increased Destruction of Erythrocytes: Extracellular Causes	434	Respiratory assessments and investigations	563
Increased Destruction of Erythrocytes: Intracellular Causes	436	Respiratory failure	574
Loss of Erythrocytes from Blood Loss	438	27 OBSTRUCTIVE PULMONARY DISORDERS	583
Polycythaemias	439	Introduction	584
Haemophilias	441	Asthma	584
Thrombocytopenia	443	Status asthmaticus	591
Leukaemia and Lymphoma	444	Bronchitis	592
Multiple Myeloma	448	Emphysema	595
22 VASCULAR DISORDERS AND CIRCULATORY SHOCK	455	Mechanisms of gas trapping	600
Introduction	456	Cystic fibrosis	601
Hypertension	456	Bronchiectasis	605
Common Conditions Affecting Arteries	460	28 RESTRICTIVE RESPIRATORY DISORDERS	614
Aneurysms	463	Introduction	615
Arteriovenous Malformations	465	Parenchymal lung disorders	615
Common Conditions Affecting Veins	468	Extraparenchymal lung disorders	625
Thrombophlebitis and Phlebothrombosis	470	29 RESPIRATORY INFECTIONS, CANCERS AND VASCULAR CONDITIONS	635
Circulatory Shock	472	Introduction	636
23 CORONARY ARTERY DISEASE	483	Respiratory infections	636
Introduction	484	Upper respiratory tract infections	636
Coronary artery disease	486	Lower respiratory tract infections	638
Acute coronary syndrome	493	Lung cancer	647
24 CARDIAC MUSCLE AND VALVE DISORDERS	502	Pulmonary vascular conditions	652
Introduction	503	PART 7	
Heart failure	503	Fluid, electrolyte and renal pathophysiology	669
Other causes of heart failure	508	30 FLUID IMBALANCES	670
Heart failure: Risk factors, clinical manifestations, complications and diagnosis and management	516	Introduction	671
25 DYSRHYTHMIAS	527	Distribution of body water and fluid balance	671
Introduction	527	Compartment osmolality	672
Aetiology and pathophysiology	528	Alterations in body fluid levels	672
Clinical manifestations	533	Fluid deficits	672
Clinical diagnosis and management	536	Fluid excesses	673
PART 6		31 ELECTROLYTE IMBALANCES	684
Pulmonary pathophysiology	547	Introduction	684
26 PULMONARY DYSFUNCTION	548	Distribution of electrolytes	685
Introduction	549	Electrolyte imbalances	686
Respiratory rate, rhythm and depth	549	32 COMMON INFLAMMATORY DISORDERS OF THE KIDNEYS AND URINARY TRACT	704
Alterations in oxygen and carbon dioxide levels	555	Introduction	705
		The normal kidneys	705

Bacterial urinary tract infections	706		
Kidney disorders	708		
Urinary incontinence	718		
33 RENAL NEOPLASMS AND OBSTRUCTIONS	726		
Introduction	727		
Polycystic kidney disease	727		
Renal system cancers	728		
Renal obstructions	732		
34 ACUTE KIDNEY INJURY AND CHRONIC KIDNEY DISEASE	740		
Introduction	741		
Acute kidney injury	741		
Chronic kidney disease	743		
PART 8			
Gastrointestinal pathophysiology	753		
35 GASTRO-OESOPHAGEAL REFLUX DISEASE AND PEPTIC ULCER DISEASE	754		
Introduction	755		
Gastro-oesophageal reflux disease	755		
Peptic ulcer disease	758		
36 MALABSORPTION SYNDROMES	766		
Introduction	767		
Maldigestion	767		
Impaired mucosal function	768		
Alterations in microbial flora	772		
37 INTESTINAL DISORDERS	780		
Introduction	781		
Infectious conditions of the intestines	781		
Acute inflammatory conditions of the intestines	784		
Intestinal neoplasms	787		
Chronic inflammatory bowel diseases	790		
Intestinal obstruction	794		
38 DISORDERS OF THE LIVER, THE GALL BLADDER AND THE PANCREAS	805		
Introduction	806		
An overview of the pathophysiology of hepatobiliary disease	806		
SARS-CoV-2 and the liver	809		
Major hepatobiliary diseases	810		
Major pancreatic diseases	820		
Cystic fibrosis	823		
PART 9			
Reproductive pathophysiology	831		
39 FEMALE REPRODUCTIVE DISORDERS	832		
Introduction	833		
Menstrual disorders	833		
Genitourinary prolapse	836		
Reproductive neoplasms	839		
Female reproductive cancers	842		
Inflammatory and infectious disorders	844		
Breast disorders	848		
Ectopic pregnancy	851		
Female infertility	852		
40 MALE REPRODUCTIVE DISORDERS	862		
Introduction	862		
Prostate disorders	863		
Urethral and penile disorders	868		
Testicular and scrotal disorders	875		
Sexually transmitted infections	880		
PART 10			
Musculoskeletal pathophysiology	887		
41 MUSCULOSKELETAL TRAUMA AND MUSCLE DISORDERS	888		
Introduction	889		
Musculoskeletal trauma	889		
Fractures	894		
Muscle disorders	901		
Inflammatory myopathies	904		
Muscular dystrophy	907		
Muscle atrophy	908		
Muscle contractures	909		
Muscle cramp	909		
Delayed onset muscle soreness (DOMS)	910		
Rhabdomyolysis	911		
42 BONE AND JOINT DISORDERS	919		
Introduction	920		
Bone and joint developmental disorders	920		
Arthritis	925		
Metabolic bone and joint diseases	936		
Infective bone disorders	944		
Osteogenic tumours	946		

PART 11

Integumentary system pathophysiology 855

43	INTEGUMENTARY SYSTEM DISORDERS	856
	Introduction	957
	Inflammatory skin conditions	957
	Skin infections	965
	Viral infections	970
	Fungal infections	974
	Parasitic infections	977
	Dermal appendage disorders	977
44	SKIN CANCERS, BURNS AND SCARRING	990
	Introduction	991
	Skin cancers	991
	Burns	994
	Scarring	1002

45	BITES AND STINGS	1010
	Introduction	1011
	Spider bites	1011
	Snake bites	1012
	Tick bites	1016
	Wasp and bee stings	1017
	Marine bites and stings	1018
	Glossary	1022
	Index	000
