A Personal Note to Students *xiii*

Preface for Instructors *xiv*

PART I

THEORY AND RESEARCH IN HUMAN DEVELOPMENT

chapter 1

History, Theory, and Research Strategies 1

A Scientific, Applied, and Interdisciplinary Field 3

Basic Issues 3

- Continuous or Discontinuous Development? 4
- One Course of Development or Many? 4
- Relative Influence of Nature and Nurture? 5

The Lifespan Perspective: A Balanced Point of View 5

- Development Is Lifelong 5
- Development Is Multidimensional and Multidirectional 6
- Development Is Plastic 6
- Development Is Influenced by Multiple, Interacting Forces 7

■ **BIOLOGY AND ENVIRONMENT** *Resilience* 8

Scientific Beginnings 9

- Darwin: Forefather of Scientific Child Study 9

■ **CULTURAL INFLUENCES** *The Baby Boomers Reshape the Life Course* 10

- The Normative Period 11
- The Mental Testing Movement 11

Mid-Twentieth-Century Theories 11

- The Psychoanalytic Perspective 11
- Behaviorism and Social Learning Theory 13
- Piaget's Cognitive-Developmental Theory 14

Recent Theoretical Perspectives 16

- Information Processing 16
- Developmental Neuroscience 17
- Ethology and Evolutionary Developmental Psychology 17
- Vygotsky's Sociocultural Theory 18
- Ecological Systems Theory 19

Comparing Theories 21

Studying Development 21

- Common Research Methods 21
- General Research Designs 25

■ **CULTURAL INFLUENCES** *Immigrant Youths: Adapting to a New Land* 26

- Designs for Studying Development 28

Ethics in Lifespan Research 31

Summary 32

Important Terms and Concepts 34

PART II

FOUNDATIONS OF DEVELOPMENT

chapter 2

Genetic and Environmental Foundations 35

Genetic Foundations 36

- The Genetic Code 36
- The Sex Cells 37
- Boy or Girl? 37
- Multiple Offspring 37
- Patterns of Gene–Gene Interactions 38
- Chromosomal Abnormalities 40

Reproductive Choices 41

- Genetic Counseling and Prenatal Diagnosis 41

■ **SOCIAL ISSUES: HEALTH** *The Pros and Cons of Reproductive Technologies* 42

- Adoption 44

Environmental Contexts for Development 45

- The Family 45
- Socioeconomic Status and Family Functioning 47
- Poverty 47
- Affluence 48
- Beyond the Family: Neighborhoods and Schools 48
- The Cultural Context 50

Understanding the Relationship Between Heredity and Environment 53

- The Question, “How Much?” 53
- The Question, “How?” 54

■ **BIOLOGY AND ENVIRONMENT** *The Tutsi Genocide and Epigenetic Transmission of Maternal Stress to Children* 57

Summary 58

Important Terms and Concepts 59

chapter 3

Prenatal Development, Birth, and the Newborn Baby 60

Prenatal Development 61

- Conception 61
- Germinal Period 62
- Period of the Embryo 63
- Period of the Fetus 64

Prenatal Environmental Influences 66

- Teratogens 66
- Other Maternal Factors 71

■ **SOCIAL ISSUES: HEALTH** *The Nurse–Family Partnership: Reducing Maternal Stress and Enhancing Child Development Through Social Support* 73

- The Importance of Prenatal Health Care 73

Childbirth	75
The Stages of Childbirth	75
The Baby's Adaptation to Labor and Delivery	76
Assessing the Newborn's Physical Condition: The Apgar Scale	76
Approaches to Childbirth	77
Natural, or Prepared, Childbirth	77
Home Delivery	77
Medical Interventions	78
Fetal Monitoring	78
Labor and Delivery Medication	78
Cesarean Delivery	79
Preterm and Low-Birth-Weight Infants	79
Preterm versus Small-for-Date Infants	79
Consequences for Caregiving	79
Interventions for Preterm Infants	80
The Newborn Baby's Capacities	81
Reflexes	81
■ SOCIAL ISSUES: HEALTH	<i>A Cross-National Perspective on Health Care and Other Policies for Parents and Newborn Babies</i>
	82
States of Arousal	83
■ BIOLOGY AND ENVIRONMENT	<i>The Mysterious Tragedy of Sudden Infant Death Syndrome</i>
	85
Sensory Capacities	86
Adjusting to the New Family Unit	88
Summary	89
Important Terms and Concepts	90

PART III

INFANCY AND TODDLERHOOD: THE FIRST TWO YEARS

chapter 4 **Physical Development in Infancy and Toddlerhood** 91

Body Growth	92
Changes in Body Size and Muscle–Fat Makeup	92
Changes in Body Proportions	92
Individual and Group Differences	92
Brain Development	93
Development of Neurons	94
Measures of Brain Functioning	94
Development of the Cerebral Cortex	96
Sensitive Periods in Brain Development	97
Changing States of Arousal	98
■ CULTURAL INFLUENCES	<i>Cultural Variation in Infant Sleeping Arrangements</i>
	99
Influences on Early Physical Growth	100
Heredity	100
Nutrition	100
Malnutrition	102

Learning Capacities	103
Classical Conditioning	103
Operant Conditioning	103
Habituation	104
Imitation	104
Motor Development	106
The Sequence of Motor Development	106
Motor Skills as Dynamic Systems	106
Fine-Motor Development: Reaching and Grasping	108
Perceptual Development	109
Hearing	109
Vision	110
■ BIOLOGY AND ENVIRONMENT	<i>“Tuning In” to Familiar Speech, Faces, and Music: A Sensitive Period for Culture-Specific Learning</i>
	111
Intermodal Perception	114
Understanding Perceptual Development	115
Summary	116
Important Terms and Concepts	117

chapter 5

Cognitive Development in Infancy and Toddlerhood 118

Piaget's Cognitive-Developmental Theory	119
Piaget's Ideas About Cognitive Change	119
The Sensorimotor Stage	120
Follow-Up Research on Infant Cognitive Development	122
Evaluation of the Sensorimotor Stage	125
■ SOCIAL ISSUES: EDUCATION	<i>Baby Learning from TV and Video: The Video Deficit Effect</i>
	126
Information Processing	127
A General Model of Information Processing	127
Attention	129
Memory	129
Categorization	130
■ BIOLOGY AND ENVIRONMENT	<i>Infantile Amnesia</i>
	130
Evaluation of Information-Processing Findings	132
The Social Context of Early Cognitive Development	132
Individual Differences in Early Mental Development	133
Infant and Toddler Intelligence Tests	134
■ CULTURAL INFLUENCES	<i>Social Origins of Make-Believe Play</i>
	134
Early Environment and Mental Development	135
Early Intervention for At-Risk Infants and Toddlers	138
Language Development	139
Theories of Language Development	139
Getting Ready to Talk	140
First Words	141
The Two-Word Utterance Phase	141
Individual Differences	141
Supporting Early Language Development	142
Summary	143
Important Terms and Concepts	144

chapter 6

Emotional and Social Development in Infancy and Toddlerhood 145

Erikson's Theory of Infant and Toddler Personality 146

- Basic Trust versus Mistrust 146
- Autonomy versus Shame and Doubt 146

Emotional Development 147

- Basic Emotions 147
- Understanding and Responding to the Emotions of Others 148

■ BIOLOGY AND ENVIRONMENT *Parental Depression and Child Development* 149

- Emergence of Self-Conscious Emotions 150
- Beginnings of Emotional Self-Regulation 150

Temperament and Development 151

- The Structure of Temperament 151
- Measuring Temperament 152
- Stability of Temperament 152

■ BIOLOGY AND ENVIRONMENT *Development of Shyness and Sociability* 153

- Genetic and Environmental Influences 154
- Temperament and Child Rearing: The Goodness-of-Fit Model 155

Development of Attachment 155

- Bowlby's Ethological Theory 156
- Measuring the Security of Attachment 157
- Stability of Attachment 158
- Cultural Variations 158
- Factors That Affect Attachment Security 158
- Multiple Attachments 160

■ SOCIAL ISSUES: HEALTH *Does Child Care in Infancy Threaten Attachment Security and Later Adjustment?* 161

- Attachment and Later Development 162

Self-Development 163

- Self-Awareness 163
- Categorizing the Self 164
- Self-Control 164

Summary 166

Important Terms and Concepts 167

MILESTONES *Development in Infancy and Toddlerhood* 168

PART IV

EARLY CHILDHOOD: TWO TO SIX YEARS

chapter 7

Physical and Cognitive Development in Early Childhood 170

PHYSICAL DEVELOPMENT 171

- A Changing Body and Brain 171
 - Skeletal Growth 171
 - Brain Development 171

Influences on Physical Growth and Health 174

- Heredity and Hormones 174
- Nutrition 174
- Infectious Disease 175
- Childhood Injuries 176

Motor Development 177

- Gross-Motor Development 177
- Fine-Motor Development 177
- Individual Differences in Motor Skills 178

■ CULTURAL INFLUENCES *Why Are Children from Asian Cultures Advanced in Drawing Skills?* 179

COGNITIVE DEVELOPMENT 180

Piaget's Theory: The Preoperational Stage 180

- Advances in Mental Representation 180
- Make-Believe Play 180
- Symbol-Real-World Relations 181
- Limitations of Preoperational Thought 182
- Follow-Up Research on Preoperational Thought 183
- Evaluation of the Preoperational Stage 185

Vygotsky's Sociocultural Theory 186

- Private Speech 186
- Social Origins of Early Childhood Cognition 187
- Vygotsky's View of Make Believe Play 187
- Evaluation of Vygotsky's Theory 187

■ CULTURAL INFLUENCES *Children in Village and Tribal Cultures Observe and Participate in Adult Work* 188

Information Processing 189

- Executive Function 189
- Memory 190
- The Young Child's Theory of Mind 192

■ BIOLOGY AND ENVIRONMENT *Autism and Theory of Mind* 193

- Early Childhood Literacy 194
- Early Childhood Mathematical Reasoning 194

Individual Differences in Mental Development 195

- Home Environment and Mental Development 195
- Preschool, Kindergarten, and Child Care 196
- Educational Media 197

Language Development 199

- Vocabulary 199
- Grammar 200
- Conversation 201
- Supporting Language Development in Early Childhood 201

Summary 202

Important Terms and Concepts 204

chapter 8

Emotional and Social Development in Early Childhood 205

Erikson's Theory: Initiative versus Guilt 206

Self-Understanding 207

- Foundations of Self-Concept 207
- Emergence of Self-Esteem 207

Emotional Development	208
Understanding Emotion	208
Emotional Self-Regulation	208
Self-Conscious Emotions	209
Empathy and Sympathy	209
Peer Relations	210
Advances in Peer Sociability	210
First Friendships	211
Peer Relations and School Readiness	212
Parental Influences on Early Peer Relations	212
Foundations of Morality and Aggression	213
The Psychoanalytic Perspective	213
Social Learning Theory	214
■ CULTURAL INFLUENCES <i>Ethnic Differences in the Consequences of Physical Punishment</i>	215
The Cognitive-Developmental Perspective	216
The Other Side of Morality: Development of Aggression	217
Gender Typing	220
Gender-Stereotyped Beliefs and Behavior	220
Biological Influences on Gender Typing	221
Environmental Influences on Gender Typing	221
Gender Identity	222
Reducing Gender Stereotyping in Young Children	223
■ BIOLOGY AND ENVIRONMENT <i>Transgender Children</i>	224
Child Rearing and Emotional and Social Development	225
Styles of Child Rearing	225
What Makes Authoritative Child Rearing Effective?	226
Cultural Variations	227
Child Maltreatment	227
Summary	230
Important Terms and Concepts	231
MILESTONES <i>Development in Early Childhood</i>	232

PART V

MIDDLE CHILDHOOD: SIX TO ELEVEN YEARS

chapter 9

Physical and Cognitive Development in Middle Childhood 234

PHYSICAL DEVELOPMENT 235

Body Growth 235

Health Issues 235

- Nutrition 236
- Overweight and Obesity 236
- Illnesses 238

Motor Development and Play 239

- Gross-Motor Development 239
- Fine-Motor Development 239
- Sex Differences 239
- Games with Rules 240

- Shadows of Our Evolutionary Past 241
- Physical Education 241

COGNITIVE DEVELOPMENT 242

Piaget's Theory: The Concrete Operational Stage 242

- Concrete Operational Thought 242
- Limitations of Concrete Operational Thought 243
- Follow-Up Research on Concrete Operational Thought 243

Information Processing 245

- Executive Function 245

■ **BIOLOGY AND ENVIRONMENT** *Children with Attention-Deficit Hyperactivity Disorder* 246

- Memory Strategies 247
- Knowledge and Memory 248
- Culture and Memory Strategies 248
- The School-Age Child's Theory of Mind 248
- Cognitive Self-Regulation 249
- Applications of Information Processing to Academic Learning 249

Individual Differences in Mental Development 250

- Defining and Measuring Intelligence 250
- Other Efforts to Define Intelligence 251
- Explaining Individual and Group Differences in IQ 253

■ **CULTURAL INFLUENCES** *The Flynn Effect: Massive Generational Gains in IQ* 254

Language Development 256

- Vocabulary and Grammar 257
- Pragmatics 257
- Learning Two Languages 258

Learning in School 259

- Educational Philosophies 259
- Teacher–Student Interaction and Grouping Practices 260
- Teaching Children with Special Needs 261

■ **SOCIAL ISSUES: EDUCATION** *Magnet Schools: Equal Access to High-Quality Education* 262

- How Well Educated Are U.S. Children? 263

Summary 265

Important Terms and Concepts 267

chapter 10

Emotional and Social Development in Middle Childhood 268

Erikson's Theory: Industry versus Inferiority 269

Self-Understanding 269

- Self-Concept 269
- Self-Esteem 270
- Influences on Self-Esteem 270

Emotional Development 273

- Self-Conscious Emotions 273
- Emotional Understanding 274
- Emotional Self-Regulation 274

Moral Development 274

- Moral and Social-Conventional Understanding 275
- Understanding Individual Rights 275
- Understanding Diversity and Inequality 276

Peer Relations	277
Peer Groups	277
Friendships	278
Peer Acceptance	279
■ BIOLOGY AND ENVIRONMENT	<i>Bullies and Their Victims</i> 280
Gender Typing	281
Gender-Stereotyped Beliefs	281
Gender Identity and Behavior	281
Family Influences	282
Parent–Child Relationships	283
Siblings	283
Only Children	283
Divorce	284
Blended Families	286
Maternal Employment and Dual-Earner Families	287
Some Common Problems of Development	288
Fears and Anxieties	288
■ CULTURAL INFLUENCES	<i>Impact of Ethnic and Political Violence on Children</i> 289
Child Sexual Abuse	290
Fostering Resilience in Middle Childhood	290
Summary	291
Important Terms and Concepts	293
MILESTONES	<i>Development in Middle Childhood</i> 294

PART VI

ADOLESCENCE: THE TRANSITION TO ADULTHOOD

chapter 11

Physical and Cognitive Development in Adolescence 296

PHYSICAL DEVELOPMENT	297
Conceptions of Adolescence	297
Puberty: The Physical Transition to Adulthood	298
Hormonal Changes	298
Body Growth	298
Motor Development and Physical Activity	299
Sexual Maturation	300
Individual Differences in Pubertal Growth	300
Brain Development	302
The Psychological Impact of Pubertal Events	303
Reactions to Pubertal Changes	303
Pubertal Change, Emotion, and Social Behavior	304
Pubertal Timing	304
Health Issues	306
Nutritional Needs	306
Eating Disorders	306
Sexuality	307
■ SOCIAL ISSUES: HEALTH	<i>Lesbian, Gay, and Bisexual Youths: Coming Out to Oneself and Others</i> 310

Sexually Transmitted Infections	311
Adolescent Pregnancy and Parenthood	311
Substance Use and Abuse	313

COGNITIVE DEVELOPMENT 314

Piaget's Theory: The Formal Operational Stage 315

Hypothetico-Deductive Reasoning	315
Propositional Thought	315
Follow-Up Research on Formal Operational Thought	316

An Information-Processing View of Adolescent Cognitive Development 317

Scientific Reasoning: Coordinating Theory with Evidence	317
How Scientific Reasoning Develops	318

Consequences of Adolescent Cognitive Changes 318

Self-Consciousness and Self-Focusing	318
Idealism and Criticism	319
Decision Making	319

Learning in School 320

School Transitions	320
Academic Achievement	321

■ SOCIAL ISSUES: EDUCATION *Media Multitasking Disrupts Learning* 323

Dropping Out	324
--------------	-----

Summary 325

Important Terms and Concepts 327

chapter 12

Emotional and Social Development in Adolescence 328

Erikson's Theory: Identity versus Role Confusion 329

Self-Understanding 330

Changes in Self-Concept	330
Changes in Self-Esteem	330
Paths to Identity	331
Identity Status and Psychological Well-Being	331
Influences on Identity Development	332

■ CULTURAL INFLUENCES *Identity Development Among Ethnic Minority Adolescents* 333

Moral Development 334

Kohlberg's Theory of Moral Development	334
Are There Sex Differences in Moral Reasoning?	336
Coordinating Moral, Social-Conventional, and Personal Concerns	336
Influences on Moral Reasoning	337
Moral Reasoning and Behavior	338
Religious Involvement and Moral Development	338
Further Challenges to Kohlberg's Theory	339

The Family 340

Parent–Adolescent Relationships	340
Family Circumstances	341
Siblings	341

Peer Relations 342

Friendships	342
Cliques and Crowds	344
Dating	345

Problems of Development 346

- Depression 346
- Suicide 347
- Delinquency 348

■ **BIOLOGY AND ENVIRONMENT** *Two Routes to Adolescent Delinquency* 349

Summary 350

Important Terms and Concepts 351

MILESTONES *Development in Adolescence* 352

PART VII

EARLY ADULthood

chapter 13

Physical and Cognitive Development in Early Adulthood 354

PHYSICAL DEVELOPMENT 355

Biological Aging Is Under Way in Early Adulthood 355

- Aging at the Level of DNA and Body Cells 355
- Aging at the Level of Tissues and Organs 356

■ **BIOLOGY AND ENVIRONMENT** *Telomere Length: A Marker of the Impact of Life Circumstances on Biological Aging* 357

Physical Changes 358

- Cardiovascular and Respiratory Systems 358
- Motor Performance 358
- Immune System 360
- Reproductive Capacity 360

Health and Fitness 361

- Nutrition 362
- Exercise 363
- Substance Abuse 364
- Sexuality 365
- Psychological Stress 369

COGNITIVE DEVELOPMENT 370

Changes in the Structure of Thought 370

- Epistemic Cognition 370
- Pragmatic Thought and Cognitive-Affective Complexity 371

Expertise and Creativity 372

The College Experience 373

- Psychological Impact of Attending College 373
- Dropping Out 374

■ **SOCIAL ISSUES: EDUCATION** *How Important Is Academic Engagement in College for Successful Transition to the Labor Market?* 374

Vocational Choice 375

- Selecting a Vocation 375
- Factors Influencing Vocational Choice 375
- Vocational Preparation of Non-College-Bound Young Adults 377

Summary 378

Important Terms and Concepts 379

chapter 14

Emotional and Social Development in Early Adulthood 380

A Gradual Transition: Emerging Adulthood 381

- Unprecedented Exploration 381
- Cultural Change, Cultural Variation, and Emerging Adulthood 383
- Risk and Resilience in Emerging Adulthood 384

■ **CULTURAL INFLUENCES** *Is Emerging Adulthood Really a Distinct Stage of Development?* 385

Erikson's Theory: Intimacy versus Isolation 386

Other Theories of Adult Psychosocial Development 387

- Levinson's Seasons of Life 387
- Vaillant's Adaptation to Life 387
- The Social Clock 388

Close Relationships 388

- Romantic Love 389

■ **SOCIAL ISSUES: HEALTH** *Childhood Attachment Patterns and Adult Romantic Relationships* 390

- Friendships 391

The Family Life Cycle 393

- Leaving Home 393
- Joining of Families in Marriage 394
- Parenthood 396

■ **SOCIAL ISSUES: HEALTH** *Partner Abuse* 397

The Diversity of Adult Lifestyles 400

- Singlehood 400
- Cohabitation 401
- Childlessness 402
- Divorce and Remarriage 402
- Varied Styles of Parenthood 403

Career Development 405

- Establishing a Career 405
- Women and Ethnic Minorities 405
- Combining Work and Family 406

Summary 408

Important Terms and Concepts 409

MILESTONES *Development in Early Adulthood* 410

PART VIII

MIDDLE ADULthood

chapter 15

Physical and Cognitive Development in Middle Adulthood 412

PHYSICAL DEVELOPMENT 413

Physical Changes 413

- Vision 414
- Hearing 414

Skin 415
Muscle–Fat Makeup 415
Skeleton 415
Reproductive System 415

■ **BIOLOGY AND ENVIRONMENT** *Anti-Aging Effects of Dietary Calorie Restriction* 416

Health and Fitness 418
Sexuality 419
Illness and Disability 419
Hostility and Anger 421

Adapting to the Physical Challenges of Midlife 422
Stress Management 422
Exercise 423
Hardiness 424
Gender and Aging: A Double Standard 424

■ **SOCIAL ISSUES: HEALTH** *The Silver Lining in Life's Adversities* 425

COGNITIVE DEVELOPMENT 424

Changes in Mental Abilities 425
Cohort Effects 426
Crystallized and Fluid Intelligence 426

Information Processing 427
Speed of Processing 427
Executive Function 428
Memory Strategies 429
Practical Problem Solving and Expertise 430
Creativity 430

Adult Learners: Becoming a Student in Midlife 431
Characteristics of Returning Students 431
Supporting Returning Students 431

Summary 432

Important Terms and Concepts 433

chapter 16

Emotional and Social Development in Middle Adulthood 434

Erikson's Theory: Generativity versus Stagnation 435
Other Theories of Psychosocial Development in Midlife 437
Levinson's Seasons of Life 437
Vaillant's Adaptation to Life 438
Is There a Midlife Crisis? 438

Stability and Change in Self-Concept and Personality 549
Possible Selves 439
Self-Acceptance, Autonomy, and Environmental Mastery 439
Coping with Daily Stressors 440
Gender Identity 440

■ **BIOLOGY AND ENVIRONMENT** *What Factors Promote Psychological Well-Being in Midlife?* 441

Individual Differences in Personality Traits 442

Relationships at Midlife 443
Marriage and Divorce 443
Changing Parent–Child Relationships 444

Grandparenthood 445
Middle-Aged Children and Their Aging Parents 446

■ **SOCIAL ISSUES: HEALTH** *Grandparents Rearing Grandchildren: The Skipped-Generation Family* 447

Siblings 449
Friendships 450

Vocational Life 451
Job Satisfaction 451
Career Development 452
Career Change at Midlife 453
Planning for Retirement 453

Summary 454

Important Terms and Concepts 455

MILESTONES *Development in Middle Adulthood* 456

PART IX

LATE ADULTHOOD

chapter 17

Physical and Cognitive Development in Late Adulthood 458

PHYSICAL DEVELOPMENT 459

Life Expectancy 459
Variations in Life Expectancy 460
Life Expectancy in Late Adulthood 461

Physical Changes 461
Nervous System 461

■ **BIOLOGY AND ENVIRONMENT** *What Can We Learn About Aging from Centenarians?* 462

Sensory Systems 463
Cardiovascular and Respiratory Systems 465
Immune System 465
Sleep 465
Physical Appearance and Mobility 466
Adapting to Physical Changes of Late Adulthood 467

Health, Fitness, and Disability 468
Nutrition and Exercise 469
Sexuality 470
Physical Disabilities 471
Mental Disabilities 473

■ **SOCIAL ISSUES: HEALTH** *Interventions for Caregivers of Older Adults with Dementia* 477
Long-Term Health Care 478

COGNITIVE DEVELOPMENT 479

Memory 479
Explicit versus Implicit Memory 480
Associative Memory 480
Remote Memory 481
Prospective Memory 481

Language Processing 482
Problem Solving 483
Wisdom 483
Factors Related to Cognitive Maintenance and Change 484
Cognitive Interventions 485
Lifelong Learning 486
Summary 487
Important Terms and Concepts 489

chapter 18

Emotional and Social Development in Late Adulthood 490

Erikson's Theory: Ego Integrity versus Despair 491
Other Theories of Psychosocial Development in Late Adulthood 492
 Peck's Tasks of Ego Integrity and Joan Erikson's Gerotranscendence 492
 The Positivity Effect 492
 Reminiscence 493
Stability and Change in Self-Concept and Personality 493
 Secure and Multifaceted Self-Concept 494
 Agreeableness, Acceptance of Change, and Openness to Experience 494
 Spirituality and Religiosity 494
Contextual Influences on Psychological Well-Being 495
 Control versus Dependency 495
 Physical Health 496
■ SOCIAL ISSUES: HEALTH *Elder Suicide* 497
 Negative Life Changes 498
 Social Support 498
A Changing Social World 498
 Social Theories of Aging 499
 Social Contexts of Aging: Communities, Neighborhoods, and Housing 500
Relationships in Late Adulthood 503
 Marriage 503
 Lesbian and Gay Couples 504
 Divorce, Remarriage, and Cohabitation 505
 Widowhood 506
 Never-Married, Childless Older Adults 506
 Siblings 507
 Friendships 508
 Relationships with Adult Children 508
 Elder Maltreatment 509
Retirement 511
 The Decision to Retire 511
 Adjustment to Retirement 512
 Leisure and Volunteer Activities 513
Successful Aging 513

■ BIOLOGY AND ENVIRONMENT *Experience Corps: Promoting Retired Adults' Physical and Mental Health and Children's Academic Success* 514

Summary 515

Important Terms and Concepts 517

MILESTONES *Development in Late Adulthood* 518

PART X

THE END OF LIFE

chapter 19

Death, Dying, and Bereavement 520

How We Die 521
 Physical Changes 521
 Defining Death 522
 Death with Dignity 522
Attitudes Toward Death 523
Thinking and Emotions of Dying People 525
 Do Stages of Dying Exist? 525
 Contextual Influences on Adaptations to Dying 526
A Place to Die 528
 Home 528
 Hospital 528
 Nursing Home 529
 The Hospice Approach 529
■ BIOLOGY AND ENVIRONMENT *Music as Palliative Care for Dying Patients* 530
The Right to Die 531
 Ending Life-Sustaining Treatment 531
 Medical Aid-in-Dying 533
 Voluntary Euthanasia 534
Bereavement: Coping with the Death of a Loved One 535
 Grief Process 535
 Personal and Situational Variations 536
 Bereavement Interventions 538
■ CULTURAL INFLUENCES *Cultural Variations in Mourning Behavior* 539
Death Education 540
Summary 541
Important Terms and Concepts 542
