

Empower every teacher and engage every learner

Pearson Science Third Edition provides everything you need to teach the Australia Curriculum Science V9.0. The Student Books, eBooks with AI study tools, Pearson Digital Hub and Student Companion books bring planning, teaching, learning, revision, assessment and reporting together in one connected course. Dedicated teacher support offers clear guidance, making it easy to move between print and digital resources to engage every student.

Built for explicit teaching

Ensure every student knows what they're learning, why it matters and how to succeed with support for explicit teaching embedded across all resources, including:

- Learning intentions and success criteria
- The Gradual Release of Responsibility 'I do, we do, you do' method
- Content chunked into manageable, bite-sized pieces.

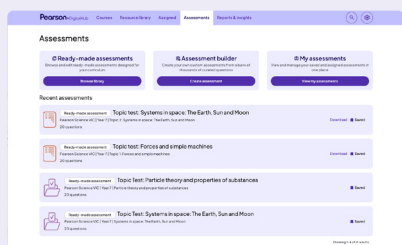

Matching lesson in the Digital Hub

Student book chapter

Flexible assessment and reporting, made simple

Check understanding, streamline revision and track progress with thousands of questions at a range of levels, supported by real-time insights from individual and class reports.

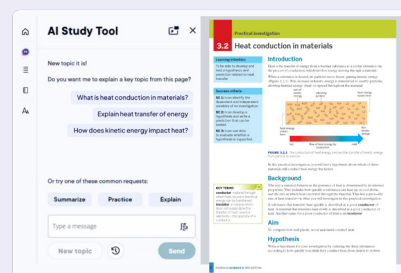

- All assessments aligned to curriculum achievement standards and outcomes.
- Formative assessment embedded at the point of learning through each topic.
- Ready-made, editable print and digital assessments designed for your curriculum.
- "Build your own" custom digital assessments from a bank of thousands of curated questions.

Individualised support, practice and feedback

Alongside expert support from teachers, AI study tools provide secure and personalised in-the-moment help drawing only from trusted Pearson Science Third Edition eBook content. From their eBooks, students can use AI study tools to:

- highlight concepts for explanations
- summarise chapters
- generate practice questions
- save notes or flashcards.
