

Gran's Damper

Melissa Purcell
Illustrated by Yvon Roy

Gran gives Dawn 3 \$2 coins and 4 \$1 coins. She asks her to buy the flour and salt.

Gran gives Peter 4 \$2 coins and a \$1 coin. She asks him to buy the oil and baking powder.

Peter thinks hard to figure out if they each have the same amount of money.

At the store, Dawn and Peter each find and pay for their items. Mum is pleased. She says, “Gran said you could each get a treat with your change. How about a muffin?”

Peter says, “I have a \$2 coin and a \$1 coin left over. I’ll get a big one.”

“I have 2 \$1 coins,” says Dawn. “I’ll get 3 mini-muffins.”

“Does that sound fair to you, Peter?” Mum asks.
