

Simplify and energise Science

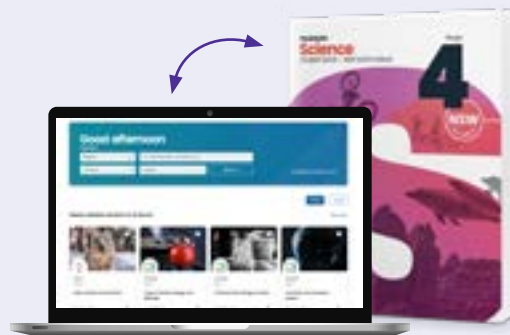

With Pearson Science New South Wales for the latest NSW 7–10 Science Syllabus

NEW

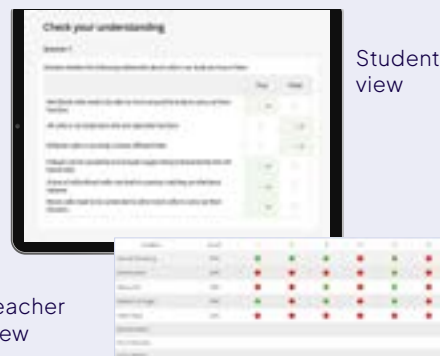

Simplifying teaching with explicit strategies proven to enhance learning for science

Pearson Science provides a complete course of ready-to-teach lessons built on explicit teaching strategies, seamlessly connected across offline and online resources. It includes prior knowledge check-in questions and modelling of new learning through worked examples. Each lesson is organised by learning intention and then chunked into success criteria to help manage the cognitive load of your students to maximise learning outcomes. Check your understanding questions allow you to assess whether the success criteria have been met.

Teach digitally in class or at home with real-time assessment

The **Digital Hub** is perfect for front of class teaching or for use in a flipped classroom model. You'll find a library of quality content, videos, worked examples, quizzes and more, broken into bite-sized, curriculum-aligned topics and lessons for Years 7–10. Each new skill has formative assessment to check student understanding, giving students and teachers immediate feedback of student progress.

Reduce screen-fatigue and distractions with Student Books

Student Books written by experienced Australian classroom educators offer the same lessons as those in the Digital Hub, giving you the flexibility to close the laptops when you want to, and help your students focus.

What's included with Pearson Science New South Wales for Years 7–10?

Expert content by Australian educators

Created with over 50 content creators with experience in Australian Science teaching and learning developed with our consultant and author Geoff Quinton, past ASTA president.

A huge bank of online teacher support

Access in-lesson teacher resources like hints, worked solutions, teaching programs, planning notes, risk assessments, and technician checklists—all downloadable and ready to use.

Simplified, explicit teaching that energises learning with print and digital lessons to help students thrive
