

# How Far?

Look at the map at the [Indigenous Place](#) website.

Fill in where you live below. How far do you think it is from where you live to each of the communities? Write your estimates in the “My estimate” column in the table.

Where I live:

Film	Location of the community	My estimate	Actual distance
<i>The Danger Seed</i>	Bidyadanga, Western Australia (near Broome)		
<i>Djulpan</i>	Elcho Island, Northern Territory		
<i>The Story of Girbar</i>	Saibai Island, Torres Strait, Queensland		
<i>Miiku &amp; Tinta</i>	Lockhart River, Queensland		
<i>The Moon &amp; the Gecko</i>	Wilcannia, New South Wales		
<i>Yulu's Coal</i>	Leigh Creek, South Australia		
<i>Bunjil the Eagle</i>	Bendigo, Victoria		
<i>The Creation of Trowenna</i>	Bruny Island, Tasmania		

Now use the online distance calculator to work out the actual distances between where you live and each of the communities. Write the distances into the table.

Then discuss the following questions with a partner.

- How accurate were your estimates?
- Which place is furthest?
- Which place is closest?
- Which places are closest to each other?
- What can you use the online distance calculator for? What can't you use it for? Why not?
