The programme really is making a difference. We even have parents coming into school to see what Rapid is because the children are talking about it so much! Rapid is a great example of the power and impact of ICT to support intervention.

“

The Rapid programme is a big success to date. The children and parents are very pleased with it, as are the teachers. We had parent interviews last week and all of the parents of my special needs children had high praise for it. They've all, without exception, noticed a huge improvement in their child's attitude to reading!
