

Indigenous Weather Knowledge

Indigenous people traditionally base their seasons on the order of seasonal events in their Country.

Look at the Bureau of Meteorology's Indigenous Weather Knowledge site.

Click here
to view the
web link.

Complete one of the following tasks.

- Research and prepare two weather forecasts for a TV station, one using Indigenous weather knowledge. The forecasts should cover the same area.
- Research and prepare a poster, report or multimedia presentation for the class about Indigenous weather knowledge. Show how it compares and contrasts with the way you usually think about the weather.
- Research and prepare a poster, report or multimedia presentation for the class about Indigenous seasons for a particular area.
