

Fenella Figgins was an inventor.

One day she said, "I'm going to make a stupendous, fantastic, amazing machine!

It will spin. It will twirl.
It will twist. It will whirl.
It will rocket right over the ground!
Fast as an arrow, fast as a dart.
Fast as the speed of sound!"

Fenella Figgins was so pleased with her idea, that she did the shoogleshake around the tree.
