

Look around you.
You might see buildings, roads or fields.
You might see trees, a river or hills.

The things you see are the things that
make up your place.
They are called features.

This family lives here.
This is their place!

Some things around you are natural features.

Natural features can be made from land or water.

Rocks can be amazing features.

Some natural features are water, trees, grass and animals.

There are many natural features in this place.
