# Pearson Humanities Victoria 7–10

## Engaging students of all levels

A new series designed to support Victorian students and teachers with comprehensive curriculum coverage of history, geography, economics and business, civics and citizenship. It's been created to engage and captivate students of all levels as they learn about humanities, to help them reach their full study potential.

### Student Book

A visually engaging spread-based design, with each chapter featuring images, illustrations, infographics and source materials to engage and captivate all learners. The **student book** includes self-contained toolkit chapters for each discipline covering key concepts and skills. All core chapters are supported by additional worksheets, solutions, teaching strategies, instructional rubrics, chapter tests and online interactives.

### Lightbook Starter

We know you want to check the readiness of your students and keep track of their progress. With **Lightbook Starter**, you get an innovative digital learning and assessment resource that prepares students and assesses them against outcomes. It's all about helping you guide your students and helping them take control of their learning.

### Student Reader+

**Reader+** is our next generation eBook. Students can read, take notes, save bookmarks and more—anywhere, anytime. Integrated resources and interactive activities enhance and extend the learning experience, helping to engage students, and give them choice and flexibility in their learning.

### Teacher Reader+

**Teacher Reader+** aids lesson preparation by combining student book page references with a wealth of teacher support to help you meet the demands of the Victorian Curriculum for humanities.

**As the world's learning company, we're inspired by the way education changes lives. We're creating innovative products and services to help all learners stay on the path to a better education.**

# Contents

## SECTION 1

### HISTORY

#### 1 History toolkit 1

- 1.1 What is history? 2
- 1.2 Introducing historical sources 3
- 1.3 Historical thinking 6
- 1.4 Chronology 8
- 1.5 Historical sources as evidence 9
- 1.6 Continuity and change 11
- 1.7 Cause and effect 12
- 1.8 Historical significance 14
- 1.9 The contribution of archaeology 15

#### 2 Ancient Australians 17

- Timeline: Ancient Australia 18
- 2.1 Evidence for ancient Australia 20
- 2.2 Populating the continent of Australia 24
- 2.3 Social structures of Aboriginal people 26
- 2.4 Living off the land 28
- 2.5 Aboriginal settlement and farming:  
New historical theories 30
- 2.6 Trade 32
- 2.7 Tools and weapons 34
- 2.8 Fire 36
- 2.9 Religion and spirituality 38
- 2.10 Sacred sites and ceremony 42
- 2.11 Songlines 44
- 2.12 Conserving ancient Australia 46

#### 3 Ancient Egypt 49

- Timeline: Ancient Egypt 50
- 3.1 The geography of ancient Egypt 52
- 3.2 Government, law and religion 54
- 3.3 Key groups in ancient Egyptian society 58
- 3.4 Everyday life 60
- 3.5 Warfare 64
- 3.6 Death and funerary customs 66
- 3.7 Contact and conflict 70
- 3.8 Effects of contact and conflict 72
- 3.9 Significant individuals 74
- 3.10 The tomb of Tutankhamen 76
- 3.11 The legacy of ancient Egypt 78

#### 4 Ancient Greece 81

- Timeline: Ancient Greece 82
- 4.1 Geography of Greece 84
- 4.2 Key groups in ancient Greek society 86
- 4.3 Government and law 88
- 4.4 Everyday life 90
- 4.5 Religion 94
- 4.6 Death and funerary customs 98
- 4.7 Warfare 100
- 4.8 Contact and conflict 102
- 4.9 A significant individual 108
- 4.10 Legacy of ancient Greece 110

<b>■ 5</b>	<b>Ancient Rome</b>	<b>113</b>	<b>■ H1</b>	<b>Ancient India</b> <b>DIGITAL ONLY</b>	<b>1</b>
	Timeline: Ancient Rome	114		Timeline: Ancient India	2
5.1	Geography of ancient Rome	116	H1.1	Geography of ancient India	4
5.2	From monarchy to republic	118	H1.2	Social organisation	6
5.3	Republic and empire	120	H1.3	Religion	8
5.4	Everyday life	124	H1.4	Law	12
5.5	Death and funerary customs	128	H1.5	Everyday life in southern India	14
5.6	The Roman army	130	H1.6	Death and funerary customs	18
5.7	Contact and conflict	132	H1.7	Warfare	20
5.8	The end of the republic and the growth of the empire	134	H1.8	Contact and conflict	22
5.9	Consequences of contact	136	H1.9	Significant individuals	24
5.10	Significant individuals	138	H1.10	Legacy of ancient India	28
5.11	Legacy of ancient Rome	142			
<b>■ 6</b>	<b>Ancient China</b>	<b>145</b>			
	Timeline: Ancient China	146			
6.1	Geography of ancient China	148			
6.2	Key groups in ancient Chinese society	150			
6.3	Law and religion	154			
6.4	Everyday life	156			
6.5	Warfare	160			
6.6	Death and funerary customs	162			
6.7	Contact and conflict	164			
6.8	Consequences of contact	166			
6.9	Significant individuals	168			
6.10	Legacy of ancient China	170			

# Contents *continued*

## SECTION 2

### ■ GEOGRAPHY

#### ■ 7 Geography toolkit **173**

7.1	What is geography?	174
7.2	Key concept: Environments	176
7.3	Types of maps	178
7.4	Elements of maps	180
7.5	Grid and area references	182
7.6	Topography and relief maps	184
7.7	Topographic maps	186

#### ■ 8 Water: A renewable natural resource **189**

8.1	The importance of water	190
8.2	Weather and climate	192
8.3	The water cycle	196
8.4	Precipitation	198
8.5	In the field: Measuring weather	202
8.6	Water in Australia	206
8.7	Water supply in Australia	208
8.8	Distribution of water	210
8.9	Water scarcity	212
8.10	Catchments	214
8.11	Case study: Importance of water: Aboriginal and Torres Strait Islander communities	216
8.12	Case study: Importance of water: Sayan village, Bali	218

#### ■ 9 Water use and management **221**

9.1	Water use	222
9.2	Water footprint	224
9.3	Virtual water	226
9.4	Increasing water supply	228
9.5	Water management in Australia	232
9.6	Reducing household water use	234
9.7	Case study: The Murray–Darling Basin	236

#### ■ 10 Atmospheric and hydrological hazards **241**

10.1	Hazards and disasters	242
10.2	Severe storms	246
10.3	Tropical cyclones	250
10.4	Tornadoes	254
10.5	Flooding	258
10.6	Heatwaves	262
10.7	Drought	264
10.8	Drought in Australia	266
10.9	Responding to hazards	268

#### ■ 11 Liveability **271**

11.1	Deciding where to live	272
11.2	Liveability of places	274
11.3	Sense of place	276
11.4	Attachment to Country	280
11.5	Environmental quality and liveability	284
11.6	Access to services and facilities	286
11.7	Urban, rural and remote	288
11.8	Social connectedness	290
11.9	Measuring liveability	292

#### ■ 12 Enhancing liveability **295**

12.1	Methods of enhancing liveability	296
12.2	Taking action	298
12.3	Better cities	300
12.4	Urban housing densities	302
12.5	Urban consolidation	304
12.6	Transport and cities	306
12.7	Better shopping centres	308
12.8	Better recreational spaces and schools	310
12.9	In the field: Investigating neighbourhoods	314

### SECTION 3

## ■ CIVICS AND CITIZENSHIP

### ■ 13 Civics and citizenship toolkit 319

- 13.1 What skills do you need to be an active citizen? 320
- 13.2 Posing questions and conducting research 322
- 13.3 Researching civics and citizenship issues 324
- 13.4 Analysing and interpreting sources 325
- 13.5 Solving problems and making decisions 326
- 13.6 Communicating and reflecting 328

### ■ 14 Citizenship, diversity and identity 331

- 14.1 What is identity? 332
- 14.2 Multiculturalism: The changing face of Australia 336
- 14.3 Australia: A nation of many faiths 338
- 14.4 Australia's diversity 340
- 14.5 Australian values 344

### SECTION 4

## ■ ECONOMICS AND BUSINESS

### ■ 15 Economics and business toolkit 349

- 15.1 What is economics and business? 350
- 15.2 Questioning and research 352
- 15.3 Analysis and interpretation 354
- 15.4 Economic reasoning, decision making and application 357
- 15.5 Communication and reflection 359

### ■ 16 Producing and consuming 361

- 16.1 Identifying producers and consumers 362
- 16.2 Responding to consumer demand 364
- 16.3 Price and demand 366
- 16.4 Responsibility in markets 370

### ■ 17 Becoming enterprising 373

- 17.1 Entrepreneurs 374
- 17.2 Enterprising behaviours 376
- 17.3 Business in Australia 380
- 17.4 Business opportunities 382
- 17.5 Case study: Australian businesses 386

Glossary 390

Index 398

# Be skilled

Each **skills builder** outlines a subject-specific method or technique for students to master; they are instructive and self-contained, and step students through key skills to prepare and build student fluency and application. **Toolkit chapters** for each discipline cover key concepts and skills from the Victorian Curriculum and are tailored for Level 7. There are also additional graphic organisers and useful templates available for students via the Student Reader+.

### 7.3 Types of maps

#### Using maps

Geographers use many different types of maps. Topographic maps are typical maps of areas known as the physical environment. They are particularly useful. Geographers also use other types of maps, such as road maps and the world atlas. Maps, satellites, navigation, information systems, computer databases and other tools are used to create maps.

#### Topographic maps

Figure 7.3.1 is an example of a topographic map that shows a small area of the Earth's surface in detail. It depicts the shape of the land (topography) as well as different types of natural features (such as rivers and vegetation) and cultural features (such as land use, settlement patterns, and road and rail networks). Topographic maps use a variety of symbols to represent these features.

#### Physical and human features maps

The map is an atlas or often labelled with human (cultural and political) features such as boundaries, boundaries of different regions, types of major cities, towns, rivers, and political boundaries. Such maps are used to show human features such as cities, towns, rivers, political boundaries and other cultural features.

#### Thematic maps

Thematic maps are often used to show the distribution of specific aspects of our environment. These include: population, population density (the number of people per km<sup>2</sup>), economic development (such as agriculture, mining, industry, and services) and agricultural land use. Figure 7.3.2 is a thematic map showing average annual rainfall in South Africa.

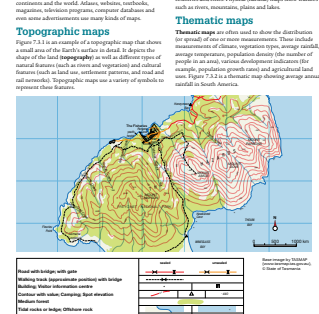

Figure 7.3.1 is a satellite-style topographic map of South Africa. It shows the physical terrain with elevation contours and various symbols for cities, towns, roads, and rivers. A legend indicates different elevation levels, and a scale bar shows distances.

Figure 7.3.2 is a thematic map of South Africa showing average annual rainfall. The map uses a color-coded legend where blue represents higher rainfall and red/orange represents lower rainfall.

#### Activities

##### Remembering and understanding

- 1 Copy and complete the following table.

Map type	Information shown	Purpose
Topographic	Physical features	Navigation
Thematic	Specific themes	Information
Road	Major roads	Navigation

- 2 Study Figure 7.3.1. List at least three features of the topographic and human features maps shown on the topographic map.

- 3 Study Figure 7.3.2. Identify the mean annual rainfall for:
  - a. Johannesburg
  - b. Cape Town
  - c. Durban
- 4 You are a geographer working on a report on your local natural park. You are researching the amount of rainfall in your area. You are interested in population. What types of maps would you use to display your findings? Explain why you chose this type of map.

### 7.4 Weather maps

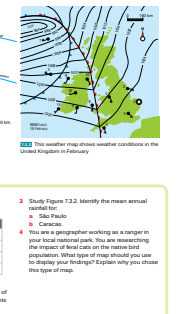

#### Choropleth maps

A choropleth map is a special type of thematic map that uses a color scale to show the distribution of a variable across a region. The type of variable shown is usually a quantitative variable, such as the amount of rainfall. The map uses different shades of color to represent different levels of the variable. Figure 7.4.1 is an example of a choropleth map.

#### Weather maps

Weather maps show weather conditions over particular areas of the Earth's surface at a particular time. They show the location of low and high pressure systems and other weather features. The map shows the location of the weather system and the weather conditions that are likely to occur. You also see the location of the weather system and the weather conditions that are likely to occur.

#### Activities

##### Remembering and understanding

- 1 Copy and complete the following table.

Map type	Information shown	Purpose
Topographic	Physical features	Navigation
Thematic	Specific themes	Information
Road	Major roads	Navigation

##### Spotlight skills

- 1 Study Figure 7.3.1. List at least three features of the topographic and human features maps shown on the topographic map.

# Be extended

The **case study** units relate to a specific event or location, and are written to extend students' knowledge and understanding. The **spotlight** boxes focus their attention on a place, an issue or a concept relating to the unit; they are designed to develop students' knowledge and understanding of the ideas and processes that are central to the Level 7 study of the humanities. The **in the field** units in the geography section provide a step-by-step guide to undertaking and evaluating fieldwork; they have been written as a guide and are not tied to a specific location, so they can be used with fieldwork studies the class is undertaking.

### 8.5 Measuring weather

#### Aim

The aim of the fieldwork is to measure and record weather and climate data. The aim is to collect data that can be used to compare weather and climate data from the location of the fieldwork.

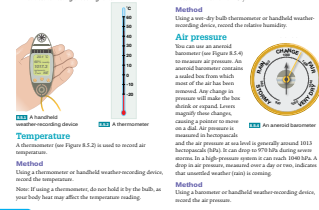

#### How to record weather data

A variety of instruments can be used to record weather data for a specific location. You can use:

- 1 a handheld weather-recording instrument
- 2 a handheld digital tool (such as a smartphone or an iPad) with a weather-recording app
- 3 a handheld digital tool (such as a smartphone or an iPad) with a weather-recording app

To ensure the accuracy of your weather data, ensure that:

- 1 the site is open and free from obstructions
- 2 the site is not near a building or a road
- 3 the site is not near a large tree
- 4 the site is not near a road

#### Relative humidity

Relative humidity is the amount of water vapor in the air relative to the maximum amount of water vapor that the air can hold at a specific temperature. It is expressed as a percentage.

#### Wind direction

Wind direction is the direction from which the wind is blowing. Wind is measured from the direction from which it is blowing. A wind vane is used to measure wind direction.

#### Wind speed

Wind speed is the speed at which the wind is blowing. Wind speed is measured using an anemometer. Wind speed is measured by rotating cups or cups that are attached to a vertical axis. The wind speed is measured by the rotation of the cups.

#### Method

Using a handheld digital weather-recording device, record the wind direction.

#### Method

Using a handheld digital weather-recording device, record the wind speed.

### 8.5 Measuring weather

#### Wind direction

A wind vane is used to measure wind direction. The wind vane is a device that is used to measure the direction from which the wind is blowing. The wind vane is attached to a vertical axis. The wind vane is used to measure wind direction.

#### Wind speed

Wind speed is the speed at which the wind is blowing. Wind speed is measured using an anemometer. Wind speed is measured by rotating cups or cups that are attached to a vertical axis. The wind speed is measured by the rotation of the cups.

#### Method

Using a handheld digital weather-recording device, record the wind direction.

#### Method

Using a handheld digital weather-recording device, record the wind speed.

#### Activities

##### Remembering and understanding

- 1 Copy and complete the following table.

Map type	Information shown	Purpose
Topographic	Physical features	Navigation
Thematic	Specific themes	Information
Road	Major roads	Navigation

##### Spotlight skills

- 1 Study Figure 7.3.1. List at least three features of the topographic and human features maps shown on the topographic map.

# Be progressed

The student book **activities** reinforce key understandings and extend students beyond the text by involving them in a variety of learning experiences; they are crafted using Bloom's taxonomy to cater for the full range of learning abilities to move learners towards what they are expected to know and to help them consolidate that knowledge. Many of the activities are based on the stimulus material presented in the chapters, to facilitate the development of the skills. There are handy icons in the student book to indicate the best time for students to engage with the corresponding **Lightbook Starter** assessment module. These formative assessment modules link back to overview questions at the start of the chapter.

### 17.3 Business in Australia

#### Business structures

A business is an organization that is established to provide goods or services to its customers. A business is an organization that is established to provide goods or services to its customers. A business is an organization that is established to provide goods or services to its customers.

#### Partnership

A partnership is a business structure in which two or more people share the ownership and management of the business. A partnership is a business structure in which two or more people share the ownership and management of the business.

#### Franchise

A franchise is a business structure in which a person or organization grants the right to another person or organization to use its name and logo in exchange for a fee. A franchise is a business structure in which a person or organization grants the right to another person or organization to use its name and logo in exchange for a fee.

#### Cooperative

A cooperative is a business structure in which a group of people share the ownership and management of the business. A cooperative is a business structure in which a group of people share the ownership and management of the business.

### 17.3 Business in Australia

#### Business structures

A business is an organization that is established to provide goods or services to its customers. A business is an organization that is established to provide goods or services to its customers. A business is an organization that is established to provide goods or services to its customers.

#### Partnership

A partnership is a business structure in which two or more people share the ownership and management of the business. A partnership is a business structure in which two or more people share the ownership and management of the business.

#### Franchise

A franchise is a business structure in which a person or organization grants the right to another person or organization to use its name and logo in exchange for a fee. A franchise is a business structure in which a person or organization grants the right to another person or organization to use its name and logo in exchange for a fee.

#### Cooperative

A cooperative is a business structure in which a group of people share the ownership and management of the business. A cooperative is a business structure in which a group of people share the ownership and management of the business.

#### Activities

##### Remembering and understanding

- 1 List the different types of business structures.

##### Applying and analyzing

- 1 Study the text and the diagram. Identify the different types of business structures.

##### Evaluating and creating

- 1 Complete a cooperative and a franchise. Explain the difference between the two.

# Lightbook Starter

The **Lightbook Starter** is a cutting-edge **formative** and **summative** assessment platform, containing **complementary sets of questions** for reviewing the student book's units and chapters. These digital questions serve as an alternate or additional assessment opportunity for students who enjoy the benefits of **instant feedback**, **hints** and **auto-correction**. There are handy icons in the student book to indicate the best time for students to engage with the Lightbook Starter.

Students and teachers can enjoy the visibility of learning through a progress tracker that shows each student's achievement against selected curriculum learning outcomes.

## Be ready

The **before you begin** section includes useful preparatory material and questions to **activate** the **prior knowledge** of students and to establish their knowledge baselines. In addition, the expected **learning outcomes** present the key knowledge of the chapter in a student-friendly manner.

## Be assessed

A variety of **interactive question types** with **hints** and **solutions** help students to check their understanding of what they are learning; these tools provide scaffolding and guidance to students so that they can confidently attempt review questions in class or at home. The module reviews are useful as a revision device to help students identify their areas of weakness or as a **formative assessment** to inform teachers in their lesson planning. The Lightbook Starter can also be used by students to check their understanding throughout the chapter; students benefit from the Lightbook Starter's **auto-corrected** responses that re-teach key concepts and provide them with instant feedback.

## Be in control

The Lightbook Starter enables teachers and students to use a digital assessment tool as an alternative or addition to the questions in the student book. The Lightbook Starter's structure mirrors the overview questions on each chapter opening of the student book so that it provides a **fully integrated approach to digital assessment** and feedback.

## Be reflective

An integrated set of **reflection** questions support students in considering their progress and future areas for focus. Students are frequently prompted to reflect on what they've learnt, and how they've worked.

## Be tracked

Students can enjoy seeing progress through the learning outcomes that are updated instantly in the **progress tracker**; the progress tracker **teacher dashboard** shows where the learners are in their learning and is mapped to Victorian Curriculum content descriptors.

# Teacher Reader+

The **Teacher Reader+** makes lesson preparation easy by combining additional teaching strategies and ideas for class activities along with differentiation and EAL/D support. Suggested solutions are also included, as well as all the answers to the student book activities.

## Be prepared

The **chapter resource summary** for each chapter provides an easy reference point and overview for teachers; there are also categorised activity references for each student book unit to help make tailored lesson planning easier. Full **answers**, including suggested alternative solutions, to all the activities are also supplied. Further, each unit's **learning objectives** are clearly stated.

## Be differentiated

The **differentiated rich task worksheets** help learners to increase their fluency in using specific skills and to demonstrate their understanding of key concepts. The rich tasks are differentiated along three complexity levels to support different entry points for students. There is an accompanying **rubric** for each task that teachers can give students upfront to more explicitly define their goals.

# Student Reader+

Reader+ is our next generation eBook. Students can read, take notes, save bookmarks and more—anywhere, anytime.

## Be equipped

Integrated resources and interactive activities enhance and extend the learning experience, helping to engage students, and give them choice and flexibility in their learning.

## Be supported

The **teacher guide** offers a range of ideas to introduce students to each new topic, as well as to spark and activate their prior knowledge in the subject area. There are skills continuum rubrics also available for each discipline. Further, students can be encouraged to track their progression on the continuum throughout their learning.

## Be report-ready

The students' understanding can be tested by using the ready-made **Lightbook Starter chapter assessment**. This **summative assessment** can be assigned by teachers; alternatively, teachers can use the **printable and editable chapter test** format available via the Teacher Reader+.
