

But Mr Zachary didn't like Mrs Zachary's plan. He went to talk to the neighbour.

*Mrs Zachary
and I cannot agree
on a plan for our new
house.*

The next day, the neighbour came over with a new plan.

Description

The house is long and looks like an old bus. It has a row of small windows on each side and windows in the roof. The outside is made of tin. Inside, the house has six rooms. The dining room is the biggest. It has a huge long table with short legs. In the middle of the table is a train track. The train carries the food around the table. The colours inside the house are very bright. Every room is a different colour.
