

Simplify and energise Maths

With Pearson Mathematics for the new 7–10 Mathematics syllabus in New South Wales

NEW

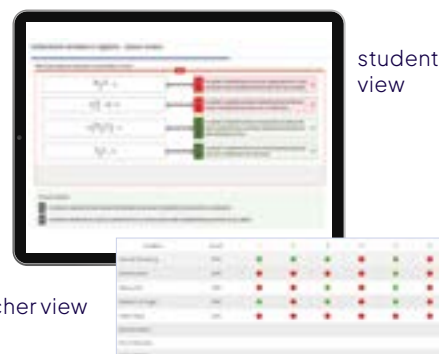

Lessons built around explicit-teaching strategies to improve learning outcomes

Pearson Mathematics provides a complete course of ready-to-teach lessons built on explicit-teaching strategies. Each lesson is organised by learning intentions and then chunked into success criteria to help manage the cognitive load of your students to maximise learning outcomes. Check your understanding questions allow you to assess whether the success criteria have been met.

Teach digitally in class or at home with real-time assessment and feedback

The **Digital Hub** is perfect for front of class teaching or for use in a flipped classroom model. You'll find a library of quality content, assessment, videos, activities and more, broken into bite-sized, curriculum-aligned topics and lessons for Years 7–10. Each new skill has formative assessment to check student understanding, giving students and teachers immediate feedback of student progress.

Reduce screen-fatigue and distractions with Student Companions for guided practise

Use **Student Companions** as a companion text to the **Digital Hub** providing a write-in text that facilitates guided practise and consolidates learning across the year. Use this in class or as a homework program at home.

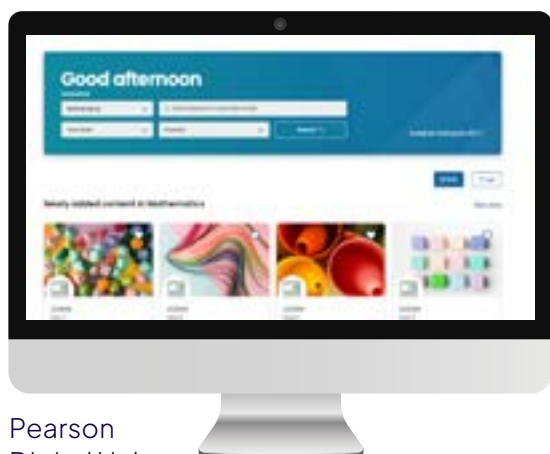

What's included with Pearson Mathematics for New South Wales?

Expert content by Australian educators

Created with over 30 content creators with experience in Australian Mathematics teaching and learning with best practice lesson design to support explicit teaching strategies.

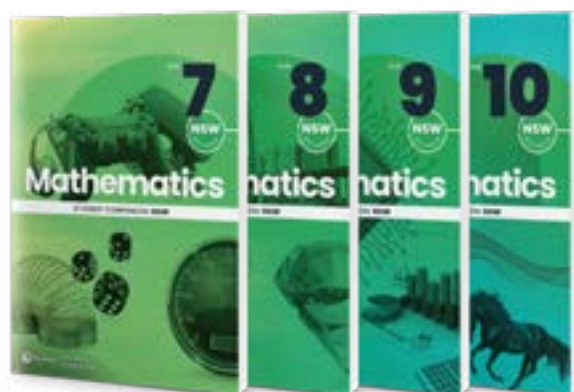

A huge bank of online teacher support

Access teacher resources like hints, lesson warm-ups with enabling and extending prompts, common misconceptions with remediation and full teaching programs.
