# How to use ActiveLearn Primary

You should have received login details for our Pupil World, called **ActiveLearn Primary**. (If you haven't had them yet, look out for an email from us.) This is where your child can access lots of great **Bug Club** e-books and **Abacus** maths games.
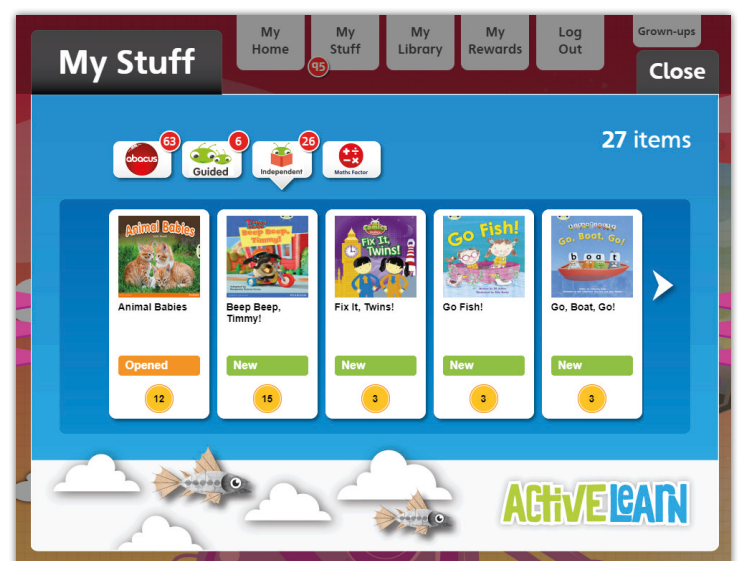

Logging in to **ActiveLearn Primary**

1 Go to
www.activelearnprimary.co.uk

2 Click '**Log in**' and enter the login details we sent you by email.

3 If you have a problem logging in, please **contact our Digital Support team**.

My Stuff

This is where you will find the games and books that we have allocated for your child. If you told us your child's Book Band, you will receive fantastic **Bug Club** e-books for that Book Band. If we just know their year group, then we will allocate the recommended Book Band for the start of that year.

You will also receive a great selection of **Abacus** maths games for your child's year group (Years 1-6).

Pearson

Completing Bug Club e-books

Bug Club e-books have little 'quizzes' for children to complete as they read through the book. These are shown by a bug head in a circle which will appear on some pages of the book. Once every quiz has been done, the book is complete!

Once your child has completed all their books, we will allocate them some more. If the new books don't appear within a couple of days, then please get in touch with our [Digital Support team](#).

Completing Abacus maths games

Each **Abacus practice game** has three levels: Bronze, Silver and Gold. This will give your child a great sense of achievement as they master each level. They will need to get most of the questions right in order to get to the next level. Once they have mastered Gold, the game is complete!

'My Library'

When e-books and maths practice games are completed, they will move into your child's '**Library**', where they can be read or played again as many times as they like. Enjoy!

For more help, go to the '**Grown Ups**' area in **ActiveLearn Primary**.

You can also watch these [ActiveLearn Primary how-to videos](#) especially for parents.
